William Hamilton

Caserta
18th June 1793

Olive Ann Thomas
Pittsburgh, Pa.

Extracts from the Report of a Native Inhabitant of Salem who was sent to Seringapatam for Intelligence, which he left on the 2nd of June. He returned to Salem on the 11th of June 1799

On his way to Seringapatam he met One Pushtoon of Infantry without Guns about the 19th of May - one march West from Coimbatoor - and said to be destined for Coimbatoor - The name of the Officer of Pushtoon, the Manager of Tippoo's country is Z. the Parts and South of the River Cavery

He heard at Seringapatam that Cumeer Deen's Division of Pushtoon of Oude was reinforced on their Pushtoons from Seringapatam - and that they had marched about the middle of May —

to surrender, and when their Provisions may be
exhausted will probably effect their escape thro' a thick
and rugged wood on one side of the Fort.
Upon Sippo's hearing Cumur-ul-Deen's third assault
being unsuccessful, he sent him a reinforcement
of three Cheloons without Guns, which the Marcars
met when he was returning, this marches Southward
of Great Sera on its way to join Cumur-ul-Deen,
whose force on the 28th of May consisted of five Cush-
of Infantry, two Battering Guns Eight Field Pieces,
three Thousand Horse, and fifteen Hundred Peons
including 1000 Horse and 500 Peons, which were
then detached in pursuit of a Party of Bobgars
which had collected to succour the besieged Polygar
of Hedeard Gyt Tabeb was at Gurrum-conda
and Cotob-ul-Deen at Kergore, near the borders

of Balance

The Harcarah returned by Bangalore which is but weakly garrisoned ——

Note —— The Harcarah who brings the foregoing has made three or four trips to the ellysore country — and his reports have hitherto had every appearance of truth — from this report and that dated yesterday it may be inferred that Tippoo's largest force in one body is the Army under Cumur-ul-Deen North of Choultroy and that the reinforcement sent him is not more than three Cushoons.

Intelligence from Lieut. Moulton

Dated 12th May 1793

No 17

Copy to Mr Hay

Seringapatam 23rd May 1793

Purport of the Report of Ramajah a Yarcarah, who left Seringapatam on the 15th Instant

Three Cushoons of Infantry lately came from Bidenore to Seringapatam

Cumr-ul-Deen is said to be besieging Hurtehe nowa Fort near the Tungabadra and attended by Gy Gya and Cotoob-ul-Deen are still attached —

Tippo's attention is entirely taken up with improving the Fortifications of Seringapatam and encreasing the Stone Glacis thickening the Line of the North and West Faces and strengthening the South side — The Wall which was supposed had been mined by a Crack appears only to be designed to enclose his Palace — its width of a considerable thickness and height, and built of Stone and Mortar — It has as yet

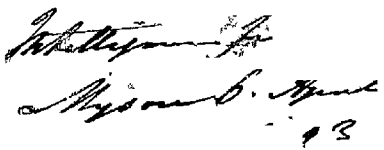
20

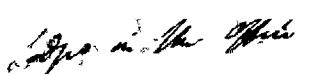
the Mysore Gate is not yet completed — The Building of the Citadel within Seringapatam is carrying on" —

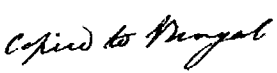
G. William Macleod

Note — The Person who brings the foregoing Packing has lately entertained Private hopes as yet no proof of his merit — But as there is nothing improbable in his report, and his having brought private Letters to Officers upon Seringapatam which have not any appearance of being forged I think his report may be credited —

W. Macleod







Jelum 12th May 1793

Extracts from the Report of Narrana a Narcarah who left Seringapatam on the 7th Inst

at Seringapatam — in the neighbourhood of which place he has about 6000 Infantry and 5000 Horse — The Foot are cantoned on the Island and the Horse are partly at Sultanpet and parts of the Curreghut Hill — Cumur ul Deen's Detachment of about 5000 Infantry and 2000 Horse still continues near the Borders of the River Sungabooda at Hatchindroog to awe tributary Polygars in that neighbourhood — Cootob-ul-Deen with his Corps of about 4000 Foot and 1000 Horse is at Kurpa near the frontiers of Balaur — and Gh[illegible] with his Body of 3000 Infantry and 1500 H[illegible] is marched from Gurramconda towards S. E.

Excursion at Yarramcondra— It appears the
ex-quartermaster, having already received such Orders as
he were instructed— And there is no cause to suppose
that they shall for a considerable time be employed
when any other Service

[illegible] will
shortly visit Bangalore and that on his
return to Arnigoondy he will be accompanied by
Tippoo's natural son Shahdurshah [illegible]

[illegible] Hanmanthe Rauts and others by the
inhabitants of Chandy Droog, which they describe
to be extremely rugged [illegible] with
considerable labour cultivated [illegible]
[illegible] for an Army [illegible]

Bingham.

Tellicherry 12 April 1793

Extract from the Reports of Captains and Farmer with the Detachment from Seringapatam on the 6th Inst.

Tippoo is at Seringapatam, pursuing his Improvements in the Fort by raising the Stone Glacis on the North Face and strengthening the Cypress Gateway

The Troops in the neighbourhood of Seringapatam are all encamped upon the Island and are composed of 2000 Horse, five Cushoons of Infantry 800 each and Usbecs Corps formerly Tippoo's of about 40 Europeans 1000 strong — The five Cushoons furnish 1200 men daily as Guards in the Fort — Usbecs Corps are excused this duty.

It was alledged that Cumur-ul-Deen was working at Angoondy and Syd Saheb with his Division

Several Parties of Recruits from different parts of the Country, have lately arrived at Seringapatam which is the only place appointed for their being disciplined at

All Tippo's Gun Bullocks are assembled at Seringapatam in order to be mustered; after which they are again to be dispersed for the sake of forage.

The Party encamped at Seringapatam consists of 1500 Horse and about 4000 Infantry chiefly Recruits. besides Vessels Corps of 7 or 800.

William Macleod

Selim 21st March 1793

this enquiry of the Chiefs to demand money from them as to such of them as particular Orders.

Since the Peace it does not appear that any Plan has been taken to strengthen any of the Forts round Seringapatam

William Medows

Note:- The Harcarah who brings the foregoing may think he depended upon as to the truth of his report. He brought Letters from Cummer-ul-Deen's Camp and from Seringapatam from persons to their families in the Camp. The Harcarah with whom he dispatched with was left sick near Bangalore

W Medows

Camp near Bangalore 19th March 1793

Lieutenant Colonel Brown

19th March 1793

Secretary

From the Report of Mullah and Munjah Horcarahs, who left Seringapatam on the 10th of March 1793.

They confirm the report of Ranojie (who arrived at Nellum on the 7th of March) regarding Tippoo's raising the Stone Glacis on the North face of Seringapatam, his erecting a Cavalier on the South face, and the improvements making to the Mysore Gateway — The Traverses of which are rebuilt after the European manner, arched.

They hear from report that Cumur-ul-Deen was at Anegoondy — Syd Saheb near Goorrumconda and Coolwob-ul-Deen near the borders of the Balaric country.

The line of Redoubts which defended Tippoo's Camp on the 6th of February 1792 are still standing except Sibbald's Redoubt which has been demolished — They are however without any Guards in them.

inimical to Tippoo's Government on that quarter

In Harcarah in returning met one Cushoon, one Gun and Three Hundred Horse under Mungee, whose party was to reinforce Cumur-ul-Deen to make up for the Garrisons left on the Forts he had taken from Polygars

Cootoob-ul-Deen is at Korgoor not far from the Borders of the Balaree country— His Detachment is said to consist of Five Cushoons nine Guns and Fifteen Hundred Horse— And Cumur-ul-Deen with his party (of nearly the same strength as Cootoob-ul-Deen) is at Tempoutty in the Garroomconda Country— Both those Divisions (but one employed in reducing Polygars— But now seems they have accomplished that service

The strength of a Cushoon may at an average be reckoned at Twelve Hundred men, which will make the Infantry of the three Divisions which Tippoo has at present in the Field amount to Twenty one Thousand men

There are Two Thousand Recruits encamped upon the Island near Seringapatam, which are intended to recruit the Corps in the Field— one at the

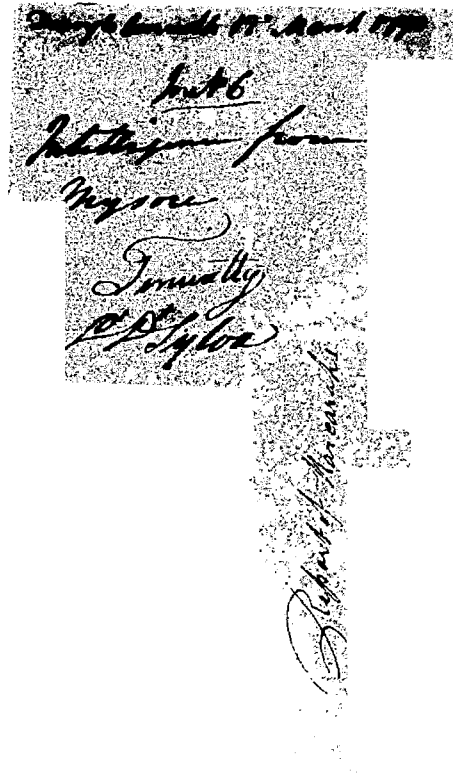
same place there are Fifteen Hundred Horse which were lately purchased from Mahratta Merchants

Tesies Corps of about Eight Hundred men of different Casts among whom are only Six Europeans is likewise encamped upon the Island.

Tippo is at Serringapatam — He is raising the stone Glacis upon the North East — completing his alterations to the Colgoor Gateway and raising a large Cavalier upon the South side of the Fort — for the erecting of which he caused one the chief Pagodas in the Fort to be levelled in September last — His Palace in the Fort being higher than the Fortification was exposed from the outside — This has induced him to cause the highest part of it to be unroofed and cut down to the level of the Rampart —

It is reported that Cumur-ul-Deen [illegible] Coolub-ul-Deen and the principal Chiefs in his country are ordered to Seringapatam — by some conjecture it is to be present at the marriage of his natural Son Futteh [illegible]

— H formerly



Tellam 7th March 1793

Extracts from the Report of Ranoges a Marcarah who left Camur-ul-Deen's Camp on the 8th of February at Cottoor sixty Miles south East from Chigoondy and having returned by Serengapatam left that Place on the 28th of February.

The Fort of Cottoor was during the late war taken from Tippo by the Polygar of Harpoonelly who kept possession of it untill about the 30th of January last, that Camur-ul-Deen appeared before it. Its Carrison was One Thousand Horse and three Thousand Peons. The Polygar made his escape with the Horse upon the approach of Camur ul Deen, leaving the Fort in charge of the Peons, who surrendered without much resistance but with a loss of near One Thousand killed.

Camur ul Deen's Division consists of seven Cushoons, twelve Guns and Three Thousand Horse. It was said in his Camp that he intended to march to Chigoondy to relieve some Polygars who still remained

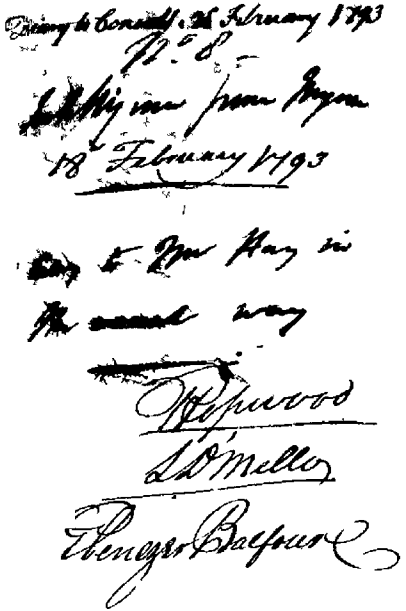
on my absent a month ago from the Seige of Coimbatoor
send upon the Peruaun of Coimbatoor which a
only Horse Tippo has below the Ghauts.

The Forts of Carroor, Settemungalum, Dandicotta,
Coimbatoor, Daraporam and Erood are garrisoned
two or three Hundred Peons each — No steps have
since the Peace, taken to strengthen those Posts,
the three last-mentioned Places are still without
Gates and otherwise destroyed.

The Polygars of Chapatchy and Dolaco
aided by Peons & who deserted Tippo's Governm
still continue to make nightly depredations on
districts of Daraporam and Animallie

William Chalmers

Note — The foregoing is confirmed by a Letter Ka
M Munro.



Vellum 4th March 1

From the Report of Lieut. Harcourt who
has just arrived from Bannerty about the 15th Inst. went to
Coimbatoor by Cannoor Conoad Satiamungalum and ret-
Coimbatoor on the 27th of last month returning by
Dharapooram.

The Plunder which prevailed in Cannoor and
Conoad respecting Deserters having been issued for on Hay
Hedges burning Straw, and poisoning wells appears
to have been confined to those two districts only
The Hedges in general bordering upon the high roads
between Cannoor and Conoad are cut down and as
they have desisted from cutting any more, it seems to
order must have been countermanded

The Report of a Body of Horse in the
the Coimbatoor country thro' the Gaps
is not justly originated from only thirty Horse

of Tombaloo & the dispatches. Marcus to learn the
news and design of Hyder Ally.

Copy to Mr Hay

Sarnachellum

several Days past, it has been reported to me,
that Tippo has sent orders to his Amildars South of the
Caveri and below the Gaut's that all Wells and Tanks
should be poisoned with a Milk-Hedge, – all Straw burnt
and all Hedges cut down – at first I was unwilling
to credit the report from it's appearance of improbability
but now there is cause to believe that orders nearly of
that nature have been issued, because they have actually
cut down several Hedges in the Carroor District,
which bordered upon some of the high Roads –

A Party of Horse which lately descended the
Pulgautty Pass, divided into two Corps – one is at
Sattimungulum and the other in the neighbourhood

It had been usual before Bangalore was taken from Tippoo to fire an Evening Gun on the Fort. But since the Peace, it has been ordered that an Evening or a Morning Gun shall not be fired on any of Tippoo's Forts which had been captured by the English.

There is no Regular Infantry at Bangalore. Its Garrison consists of six or Eight Hundred Peons and a few Recruits, who are intended for the Cushoons.

William Chambers

Bangalore 3d February 1793

4

about fifty Europeans and seven or eight hundred Natives.

We heard there were seventeen European Prisoners (not in irons) in the Penalty Building to one of the Watering Gally-Ports of the City of Pekin

Mr Hall — This being the first time the Ambassador who brings the Embassy has been employed, I have not much confidence in his correctness — I think it is true that there are still European Prisoners in Tartary. They have at some period entertained an Opinion by their consent — since it is begun that European Prisoners in Pekin were detained since the Treaty made in the course of the war were put to death between the period of our Army ascending the Peiho in Feb^y 91 & the Peace in March 1792.

W. Alexander

Report of a Harcarah who left Bangalore on the 23d of January 1793

Pte.

It is reported at Bangalore that Cummer-ul-Deen has marched with his army towards Angoondy, to reduce a Polygar who is troublesome in that quarter

Of all the Polygars, who had availed themselves of the late war in possessing Forts and Pollams to the Eastward and Northward of Bangalore, none of them remaining in that country excepting the Polygar of Punganoor, who, having obtained terms for himself, is in quiet possession of his country and the Hill Fort of Avolpilly Droog.

No Repairs have been made to Bangalore since it was given up to Tippoo — Oosore is in the same state as it was four months ago, with three Breaches

in

It does not appear that Tippoo's military Establishment has undergone any material change augmentation since our peace.

[illegible] of general assessment of the Ryots made on all Tippoo's countries which have fallen particularly heavy on the inhabitants of Seringapatam.

The Army of Cornwallis was also thrown into (?) Cantonments.

Such of the Cavalry as are not [illegible] are on the Banks of the Cauvery near Seringapatam.

William Chalmers [illegible]

the Aumeenah who made the above report being a Persian & has been employed for many years, has never made the smallest mistake in his reports of Tippoo's affairs & situation, may be depended upon, & such makes his report however [illegible]

Madras 16th January 1793

Report of Chiska who left Seringapatam
about the 26th December

Hiswas dates the report of Ramapuk
regarding the new Citadel which he says is again
begun upon. The wall which is of stone and
Chunam is about 30 feet thick. In some parts
it is raised 8 or 10 feet in other parts they
are only laying the foundation. It is thought
it cannot be finished in less than three or four
years. He also confirms Ramapuks
report respecting the alterations making to the
sides of the Mysore Gate and strengthening
the Works. The Cavalry are stationed
on the Banks of the Cavery at Seringapatam
viz. Chichoval and Colegal. He hears that
Purnia with his Army was in the
neighbourhood of Chittagong and expected
soon with his party to the Polligars
beyond Coorg & part of Cannanore.

The Corps commanded by Colonel Hessie
Cully's son Colonel is at Sultanpet Ten Miles
South of Seringapatam. It consists of

Report of Krishna who left Seringapatam
the 28th December

Krishna states the report of Ramapoor
regarding the new Citadel which he says is again
begun upon — The wall which is of Stone and
Chunam is about 30 Feet thick — In some parts
it is raised 9 or 10 Feet — in other parts they
are only laying the foundation — It is thought
it cannot be finished in less than three or four
years — He also confirms Ramapoor's
report respecting the alterations making to the
works of the Mysore Gate and strengthening
the Outworks — The Cavalry are stationed
on the Banks of the Cauvery at Seringapatam
Soora, Arcotal and Colegal — He hears that
Purnaiah with his army was in the
neighbourhood of Chittengerry and expected
to join with his party in the Pettahs
during the night of Carroamcondah —

The Corps commanded by Chow. Ugrose
Cally's son in law is at Sultanpett Hill which
is to the N.E. of Seringapatam — It consists of

MONTH :
YEAR : 1792 — 95

Despatch from Nana Phark dated at Seringapatam on the 2nd of November 1792 — one being taken sick in his return to Attam, did not arrive there until the 1st of December —

Tippoo is hugely employed in strengthening Seringapatam. The two outer traverses of the new Gate having stood upon high ground by which part of the Fortification was exposed from the Inward are both pulled down that there may be a level of earth cut away from the ground on which they stood, and afterwards new traverses which will be covered by the Glacis — He is also strengthening the Outworks and raising the Glacis of the South and East Faces, and particularly erecting a work to cover the North East Angle

He has lately levelled a Pagoda near the South Rampart, and is now raising a large Cavalier where it stood — Soon after the English from Bangalore from Seringapatam in March 1792 Tippoo began to construct a Citadel within his Palace in the South — The foundation of two faces of this is laid, but that work is given over in the present situation of affairs that the intention is not may be resumed completed —

deficient were missing on Board of Ship, or lost in the conveyance and were promised to be looked for at clearing out the Ship hold —

(Signed) C. Mackenzie
Captain Engineer
Principal Engineer to the Expedition —

The Committee think it proper to observe that, exclusive of the Articles contained in the above Return, an Engineer was detached in the Month of May last to Malacca, for the purpose of preparing materials for the number of Gabions, Fascines, Pickets, Mallets, &c. &c. &c. requisite for a Siege, and intimation has been received from him that those preparations were in great forwardness —

disproved of 20 of each were consequently indented for on the Master Attendant. The Sluce notwithstanding wet Gunnys were placed over each Sash leaked so much that the Garrison Storekeeper has been obliged to put it into large earthern jars and Copper Pots until it may be necessary to send it on Board Ship when the Sluce may again be replaced on the Sashs the leakage being attributable to the hot land Winds that at present prevail.—

The Copper Pots in Store, measure on an Average from 45 to 50 Leers each; the other wanted to contain 15 Leers can soon be procured when the number of Troops now destined for Foreign Service is ascertained.—

[signed] J. Brodie.

N.B. Colonel Heath's recommendation for Cook Rooms and new Stoves having been

The Committee having taken into consideration the rates at which the Provisions should be charged to the Native Troops, Public and Private Followers so as to secure the Company against loss, are of opinion that 20 per Cent charged upon the prime Cost of the Provisions to be served to the Native Troops and Public Followers, and 25 p.r Cent on the Provision to be served to the Private Followers, will effect that object, and at the same time will be so moderate on Comparison with the prices charged during the (Mysore) War as not to bear hard upon the Individuals — The Tables in the appendix C. & D. (Appendix (2)) have therefore been prepared on this principle, for the Guidance of the parties concerned.

The Committee having called upon the Garrison Storekeeper for a Statements of the Provisions required to compleat the quantity on Board the Ships of the 1st Division to Six Months, and which could not be put on Board the sailing of the Ship, and for a Statement likewise of the quantity required to complete the Harriet and Crown for the same period, (the latter Ships having only received Provisions and Water for Six Weeks, in consequence of it's having been determined to remove the Troops from those to other Ships on their Arrival at the Place of Rendezvous which would have rendered the transhipping a large surplus quantity of Provisions both tedious and inconvenient,) the Garrison Storekeeper accordingly laid before the Committee the following Statements marked

Appendix

marked **E & F** and for which Tonnage would have been provided on the arrival of the Indramaul Calcutta expected from Bengal. Government have also ordered the King George Indiaman to be got ready with all possible Expedition to receive on Board six hundred of the Public Followers and to convey them to the place of Rendezvous, to be there distributed among the Transports ordered thither from Bengal.

Appendix

The Committee their Necessary to close their Proceedings with the annexed State-ments of the total quantities of Stores and Provi-sions required from this Presidency for the Expedition.

necessary Receipts as Vouchers for their delivery.

5th The Agent of Transports will also be responsible for the safe Delivery from the Transports of all Articles of Stores or Provisions, Camp Equipage, & Public Baggage belonging to the Troops and for taking the greatest care to prevent loss or Wastage and in all cases where it has happened thro' neglect or inattention of others he is to make a report thereof to the Quarter Master General in order that the necessary measures may be taken for making the parties answerable.

6th All Casks, whether containing Water Liquor, Stores or Provisions, as well as Packages of every description in which those Articles are deposited also Fire Places or Cabooses, necessaries, Cooking Utensils and every Article of Public property put on Board for the use of the Troops, or on Account of the Service in general shall be landed under the direction of the Agent of Transports and delivered to the Commissaries of Stores and Provisions, or to such other persons belonging to Corps and Departments as may be duly authorized to receive the same and from whom he is to obtain the necessary Receipts as directed in Paragraph 4.

7th All Casks and Packages of every kind in which Store and Provisions were embarked, are to be carefully preserved during the Passage, and the Captains of Ships as well as the Commanding Officers of the Troops on Board, are expected to pay particular attention to this Subject in order that all empty Packages be landed, and brought to account

on the Books and Returns of the Department to which they respectively belong, and to take particular care of for the public Service.

26th August. The Rose, Houghton, Minerva, and Britannia, Indiaman, being ready to receive the Troops, Resolved to recommend that three hundred and eighty Men of the 34th Battalion of Native Infantry, and forty Gun Lascars embark on Board the Rose from the Saluting Battery tomorrow at Day break, the remainder of the 34th Battalion, with their Lascars and followers, and sixty Gun Lascars to embark at the same time on Board the Houghton. Three hundred and seventy Men of the 3rd Regiment of Native Infantry to Embark on Board the Britannia at 8 Clock tomorrow from the Saluting Battery, and the remainder of the 3rd Regiment with its Lascars and Followers, and sixty Gun Lascars to embark at the same time on Board the Minerva from the Saluting Battery.

The Committee likewise recommend, that the Establishment of the Quarter Master General and the Lascars belonging to Head Quarters do Embark at 11 Clock tomorrow on Board the Britannia, from the Sea Gate.

In consequence of the Chichester Transport belonging to the Bengal Division, having been obliged by stress of weather to put into this Port, Resolved, to recommend, that forty Native Artificers belonging to the Engineer's Department be ordered to embark on that Ship at 11 Clock tomorrow.

&c

of two hundred Guineas per Month including all charges whatsoever, but the responsibility of leaving your Ships in Lascelles, his Lordship charges upon your voluntary Office sanctioned as you have stated by the acquiescence of Sir John Shore, and hereby exempts the Company from being in any shape answerable on that account to your owners.

You will immediately put yourself under the orders of the Quarter Master General of the expedition, and obey such directions as you may receive for the embarkations of the Troops; and you will also pay strict obedience to such orders as you may receive by the authority of his Excellency the Admiral.

I am,
Sir,
Your most Obedient Servant

Depty Mr. A. General.

It appearing by the above Letter, and by the General orders of 11th August that the Agents for Transports are placed under the immediate Directions of the Quarter Master General. Resolved, to propose that the following detailed Regulations be adopted for conducting that Department from the sailing of the Armament.

1st The Agent for Transports is to be under the immediate orders of the Quarter master General.

All Stores and Provisions of whatever kind, shipped on Board the Transports for the publick Service or for the use of the Troops and Followers of the Expedition are to be subject to the Inspection of the Agent of Transports, who will be furnished by the Quarter Master General with Accounts of the Quantities of each that are to be sent on Board the several Ships, and the Agent of Transports is in consequence to attend to their being so shipped; and by frequently visiting the several Transports, or Vessels, is to make himself particularly acquainted with the disposition and Stowage of the different Articles, so as to be enabled at all times to make the Reports that may be required by the Quarter Master General for the information of the Officer Commanding the Expedition.

2nd All orders for the Delivery of the Stores and Provisions, as well as for removing any part thereof from one Ship to another for the convenience of the publick Service are to be communicated by the Quarter Master General to the Agent of Transports, whose is to superintend the delivery and transhipping of such Stores and Provisions, and to report to the Quarter Master General when the whole has been completed.

4th All Stores and Provisions ordered to be landed at the place where the Troops may be disembarked are to be delivered under the directions of the Agent of Transports to the Commissaries of Stores and Provisions, or to such other Persons belonging to Corps and Departments as may be authorized to receive the same and from whom he is to obtain the neces-

42 Days already provided for them) Viz.t 450 of the former and 110 of the latter, to Five Months, and Arrack for 9 Months.

3rd The Quantity of Rice, Salt Provisions, & Biscuit and Firewood on Board the Ships sent from Bengal to the place of Redezvous (as per Bills of Lading transmitted) to be deducted from the above Statements.

4th The Rice Bags and all other Packages to be marked so as to prevent confusion or mistakes.

5th The Arrack and Salt Provisions wanted to complete these Statements to be transhipped from the Lett, Lascelles or Royal Admiral in the Roads as may be most convenient and Packeree Rice to the extent wanted to complete the Europeans. Mr Brodie is to appoint a proper person for the purpose of attending the transhipping of the above Articles, and of obtaining receipts from the Commanding Officers of the Ships to which they are removed

6th Particular care to be taken that Copper Pots, and the allotted proportion of weights and measures be sent on Board each Ship of the 2nd Division.

7th Ships will be appointed to receive the extra Provisions, as the four Indiamen rep.d of the 2nd Division will not be able to receive on Board more than the Provisions of the Troops which they are to convey, except such Articles inconsiderable in quantity) that are wanting to complete the Statements of the Ships by the 1st Division, and that could not be sent on Board previous to their departure. These are to be put on Board one, or more of the Indiamen as may be most convenient and the Packages are to be marked, so

as

are to distinguish the articles and the Ships to which they are to be afterwards sent for the use of the Troops on Board

8th The Garrison Storekeeper will learn of from Mr. Cochrane the Quantity of Arrack and Salt Provisions transhipped into the Ceres and Talbot, and whatever may be wanting to complete the Statements for those Ships is to be got ready to be embarked with the other Extra Provisions

26th August The Ships of the 2nd Division being nearly ready for Sea — The Committee recommends that the remainder of the Royal Artillery and of His Majesty's 12th Regiment do embark tomorrow after-noon at two O'Clock on Board His Majesty's Ships Suffolk and Arrogant and the detail of Native Cavalry under Major Sorin to embark at three O'Clock on Board the Rose, and three hundred Pioneers on Board the Britannia Houghton and Minerva from the Saluting Battery.

Read the following Letter of Instructions to Captain Kempt Agent of Transports

To Captain Francis Kempt

Sir

I am directed to acknowledge the receipt of your Letter of Yesterday's date and to acquaint you, that in consideration of the circumstances stated, and of the opinion of His Excellency the Commander, that a second Agent for Transports is necessary, the Right Honorable the President and Council has been pleased to appoint you to that Station, with an allowance

&c, with their Followers, Camp Equipage

the 84th Regiment intended to have been sent in the Ceres must remain for the latter Division, with the exception of a few that had previously embarked.—

The Quarter Master General states to likewise that the Albion Indiaman, Captain Pemberell Bound to Bengal, and proceeding under Convoy of the 1st Division had offered to take 12 Horses of the Native Cavalry to Penang or Malacca, and that he (the Quarter Master General) had accordingly by order of the Right Honorable the Governor sent Captain Elliot with 12 Troopers and their Horses on Board that Ship. The Agent for Transports, Captain Hall proceeded on the above Ship

20th August — The first Division sailed this Day, consisting of His Majesty's Ships Victorious and Trident, the Talbot and Ceres Indiamen with the Eliza Ann Princess Royal, Marine, Harriet, Crown and Buckinghamshire

23rd August — The Military Auditor General submits to the consideration of the Committee the following memorandums— Resolved to transmit them as instructions to the Garrison Storekeeper and likewise to furnish a Copy to the Commissary of Provisions for his information—

1st — A Statement to be made immediately of Provisions for 900 Europeans and 100 Natives on Board the Kings Ships for 3 Months, and Arrack for 6 Months. An arrangement has been made by Government with the Admiral for their being supplied with three Months Arrack and Provisions for the Voyage.

2nd — Another Statement of the Quantity of Provisions required to complete the Europeans and Natives on Board the Harriett and Crown who have only had

The Talbot Indiaman being ready for the reception of the Troops Resolved to recommend that His Majesty's 74th Regiment with one Hundred and Seventy three Followers do Embark tomorrow at Day Break from the Sea Gate, and that the detail of the Royal Artillery appointed to His Majesty's Ship Victorious, do Embark at the same time from the Saluting Battery.

19th August — The Ceres Indiaman being reported ready, the Committee recommend that a detail of 204 of His Majesty's 12th Regiment with the Public Followers of that Corps do Embark at Day Break tomorrow, and that Major Coke with the remainder of His Corps do embark on the Ceres at 8 o'Clock.

23d August — The Quarter Master General informs the Committee, that in consequence of the Officer Commanding the Troops on Board the Talbot having represented the inconvenience likely to arise from the crowded state of the Ship, he proceeded on Board by the direction of Lord Hobart and Sir James Craig, to make such alterations as might appear to him best for the service, and he removed in consequence 65 of Lascars and distributed them until a further arrangement could take place, on Board the Britannia, Houghton, Rose, and Minerva Indiamen. The Quarter Master General further informs the Committee that in consequence of the Crowded State of the Troops on Board the Princess Royal, a Company of the 33rd Battalion Native Infantry has by order of Lord Hobart and Sir James Craig been removed to the Ceres Indiaman, and the Public Followers of

N.B. The Rice is calculated agreeably to the Bengal Measure ..... The Moorgee Rice is to be measured expressly for the Native Troops, and public followers —

The

17th August

The Duchess of Buckingham and Montrose

Ships having been reported ready to receive the Troops, Resolved to recommend that a detach of two hundred and sixty Men of the 2nd Battalion 8th Regiment including European Officers, The three Companies of Sepoy Lascars belonging to the Coast, and one hundred public Followers belonging to the Department of the Commissary of Stores do embark tomorrow at Day-break on Board the abovementioned Ships from the Sea Gate and the latter from the Saluting Battery, and that a Commissioned Officer from the Coast Artillery be ordered to proceed in charge of the Sepoy Lascars on Board the Duchess of Buckingham Hall.—

On account of the great want of Water Casks to complete the number required for the Troops and followers for two Months at the rate of 3 Quarts per Man each Day, the Committee took into consideration an offer on the part of Mr. Cochrane to furnish Casks to contain 36,520 Gallons of Water on the same Terms as he supplies the Navy Viz.t 10 Pagodas for each Cask holding 150 Gallons— and an offer also from Messieurs Henderseley, Watts and Co.a to furnish 60 Europe Casks containing 190 Gallons each and 40 Casks of 150 Gallons at 50 per cent above the prime Cost— and the Committee not conceiving themselves authorized to purchase Casks on such Terms reported the subject to the Right Honble Lord Hobart who deserved, on account of the exigency of the Service, that Mr. Cochrane's offer might be accepted, and that the Casks offered by Messieurs Henderseley Watts and Co might also be taken on the lowest Terms that could be obtained, which after some correspondence

Company's Ship Lascelles and beg leave to tender it to Government at 60 Pagodas per Tunn payable in Cash on delivery or by Bills on the Bengal Government at the Exchange of the Day i.e. 384.

We are

Fort St. George
16th August 1797

Sir,
Your most Obedient Servants
(signed) Young Gordon & Connell

The above Proposal being submitted to the Right Honorable Lord Hobart, the Garrison Storekeeper was directed by his Lordship to offer 75 Pagodas per Tunn for the convenience of having it transhipped in the Roads to the Rose, Britannia, Houghton, and Minerva (the 1st Ships of the 2nd Division) which Offer was accepted, and the Garrison Storekeeper directed to receive charge of the Rice accordingly. –

Read Letter, and Enclosures from the Garrison Storekeeper dated 16th Instant.

To Major General Ross
President &c. &c. Committee for the
Inspection of Provisions.

Gentlemen,

I have the honor to lay before you the Master attendants reply to my application for Lighters as they are very much wanted to prevent the provisions getting wet in being carried through the Surf, and for securing those I find it necessary to have on the Beach during

during the night, to be at hand for the Boats early in the Morning). I request that forty Tarpaulins may be allowed me for these purposes.

I have the honor to be
Gentlemen,
Your most Obedient Servant
(signed) J. Brodie
Garrison Storekeeper

16th August 1797.

To James Brodie Esquire
Garrison Storekeeper

Sir,

In reply to your application for forty Tarpaulins, I am sorry that it is not in my power to supply you having few left and those, such as I cannot recommend for Service

I am,
Sir,
Your most Obedient Servant
signed George Farrell
Master attendant

Fort St. George
16th August
1797.

Resolved, to direct the Commissary General of Stores to supply 30 Tarpaulins as a necessary measure for the good of the Service.

The Committee having estimated from the Invoices received from Bengal the different Articles of provision &c. dispatched from thence to the place of Destination, think it proper to enter the Statement thereof on the Proceedings for the information of the Military Board

The Committee finding that the Royal Admiral, Pitt, Lascelles, and Bucbridge from Bengal have only Patchenee Rice on Board, to which Rice the Native Troops on the Coast appear from every inquiry to have an insuperable objection from an Idea that it occasions Bowel Complaints and the Committee having communicated this circumstance to the Secretary of Government, the Garrison Storekeeper was in consequence authorized to purchase 10,000 Bags of fine Moggy Rice to replace the quantity of Patchenee Rice above stated at a price not exceeding 62 Pagodas per Garce, which was found to be the Average Market rates of the Day, the price of Rice having increased in proportion to the demand. For that Motive

16th August. The Harriett and Convoy, Elgar, Ann and Princess Royal, sailed for Pondicherry on the 11th August, the two former to receive on Board the 5 Companies of the 2nd Regiment of European Infantry Commanded by Lieutenant Colonel Campbell, and the two latter the 33rd Battalion of Sepoys Commanded by Major Tolfrey, with their Provisions, Baggage and Camp Equipage— These Ships returned to Madras roads this Day—

The Committee recommend that the Detachs of His Majesty's 12th Regiment and Coast Artillery with their Followers ordered to be in readiness to proceed on His Majesty's Ships Trident, or Victorious to imbark from the Sea Gate tomorrow morning.

Read Letter from Messrs Dirom, Gordon and Connell to the Secretary of the Military Board.

Captain Pierce
Secretary to the Military Board

Sir,

We beg leave to send to you a muster of the Moggy Rice of which we have 1500 Bags on Board the Sir Edward Hamble Company's

now at the Presidency, and by those which shall hereafter arrive from the out Stations.— Officers Commanding to be particularly attentive to the preservation of the Ammunition in possession of the Corps

The Regimental Baggage of Corps is not to be embarked without an order under the signature of the Officers Commanding, countersigned by the Quarter Master General, who are required to pay the strictest attention that no Packages whatever may be passed under the denomination of Regimental Stores or Baggage except such as are really of that description, and the Commanders of the Ships will be ordered not to receive any Baggage without the Signatures above directed.—

The following are the dates on which the Ships hereafter mentioned were directed to prepare for the Expedition—

1st Harriet, Crown Princess Royal, and Atlantic 26th July.
2nd Talbot, Ceres, Eliza Ann, & Buckinghamshire Hall on the 1st August.—

3rd The Royal admiral, Pitt and Lascelles from Bengal having been examined & reported to be unfit for the Service of the Expedition, the following Ships were ordered Government on the 12th August to be got ready in their turn, Viz.t The Minerva, Rose & Houghton; & the Britannia in lieu of the Busbridge not arrived from Calcutta, and that the Battering Guns, Mortars, Gun Powder & Stores on board the three former Ships be immediately replaced by an equal number and Quantity from the Arsenal.

The following Memorandum prepared and Transmitted to the Secretary of Government with Tables of Provisions and Forms of Indents annexed which were afterwards published in General

15th August.

1 Receipts having been given by the Commanding Officers and Boards of the several Ships for the Provisions stated by the Garrison Storekeeper to have been put on Board, it is understood that the Captain of each Ship is the person generally responsible for the Provisions there put on Board.

2. A Conicophy on the part of the Commissary will be sent on Board each Ship, and in Order that the daily issues to the Troops and Followers may be made under proper check and Control, the Quantity required for each Day is to be entered in the presence of this Conicophy and a Person appointed on the part of the Commander of the Ship on a Regular Indent according to the annexed Forms, and when the Quantities specified therein may have been delivered for the Troops, the Officers Commanding Companies or Individuals for their Followers are to grant Receipts corresponding to the Quantities received, in the Column of the Indent left open for that purpose which will render it a complete voucher for the Agents Conicophy in keeping his accounts of Expenditure for the Commissary of Provisions - a Duplicate of the Indent with Receipts is at the same time to be delivered to the Commander of the Ship, or to such Person as he may appoint to receive it, so that at the end of the Voyage the expenditure of the Provisions on Board may be clearly ascertained, as well as where responsibility should attach in case of Deficiency.

3. The Garrison Storekeeper is to furnish the Commander of each Ship with an account of the Quantity of Provisions put on Board, Counterparts of which accounts are to deliver to the Commissary of Provisions with Copies of the Receipts which have been

usually supplied to the Troops on the Coast — the quantity offered, is not required. —

Lieut. & Acct. Mil. Bd.

To Mr James Brodie
Garrison Storekeeper,

Sir,

In addition to the information communicated in my letter of yesterday with respect to the delivery of articles directed to be made by different persons to you, I am to acquaint you that Messieurs Hunter & Roy have been instructed to deliver to your charge four hundred and fifty (450) Bags of Moorgy Rice which quantity is by direction of the Military Board to be drawn from the 419 Candies and 174 Measals of Rice you are directed to purchase for the Honble Company

I am, Sir

Fort St George.

Lieut & Acct Mil Bd.

The Committee having received a report that the Ships appropriated for the reception of the Troops & Bullocks are taken in their full proportion of Provisions and Provisions and that they will be ready to be dispatched tomorrow morning, a verbal communication has been accordingly made to the Secretary of Government.

12th august

12th August.

The following Memorandum transmitted to the Secretary of Government, and recommended to be published in General orders; which was done accordingly. —

Corps and Departments under orders for Foreign Service, to Indent for Tent Lascars, according to a Statement at the Military Board Office. —

Officers Commanding European Corps to Indent for the following articles

Hammocks and Bedding Mushuchs } One to each man
Spoons }

Tin Kettles } One to five men
Ditto Platters }

Commanding officers of native Corps to Indent for a Combly for each man.

Each Trunk to be restricted in their private Servants to the following numbers.

Field officer . . . . . 4.
Captain . . . . . 3.
Subaltern . . . . . 2.

Each officer embarking on Board His Majesty's Ships to be restricted to one Servant and two Trunks; the remainder of their Servants and Baggage to be sent on Board such Ships as may be appointed for that purpose. — It is expected however that officers will take as little Baggage as possible, and Commanding officers of Corps are desired to pay particular attention that no more than is absolutely necessary is allowed to be sent on Board the Ships.

The Troops to be furnished with three good Flints and thirty Six rounds of ammunition per man; Indents to be made out accordingly by the Corps

6th August 1797

The Master attendant having represented the quantity of Firewood allowed to the Troops at the rate of four Billets per man to be so extensive as to occasion great inconvenience in the Stowage of the Ships, and having submitted whether it might not be reduced without prejudice to the Troops, - The Committee in order to form an accurate opinion on the subject directed the allowance of 50 men or the same number of Wars of Rice to be boiled in one of the large Coppers, which having been done under the Superintendance of two respectable Subidars, it was found that 62 Billets of Firewood only were consumed in the process. - The Committee having inspected the Rice and ascertained it to be completely boiled, are decidedly of Opinion that 100 Billets for 50 men is an ample allowance on Board Ships, and have in consequence instructed the Garrison Storekeeper to regulate accordingly

Sent the following Letters

Mr. James Birch
Garrison Storekeeper

Sir,

Having satisfactorily ascertained that 100 Billets of Firewood of the Kind you laid before us is an ample allowance for 50 men per Day on Board Ship, we desire that you will regulate accordingly.

I am

We also think it necessary that you should replace the onions that were directed to be sold off, as being in a growing State, with others fit for being sent to Sea. —

A proportion of the Kismisses to be supplied by Mr. Cochrane should be sent on board the Crown and Harriet for the European Troops to embark at Pondicherry, and of course a due Proportion for the Europeans in the other Ships. —

You will understand that the 500 Bags of Rice to be received from Kenery Chitty & Son as well as the 450 from Messieurs Hunter & Hay are to be included in the 1190 Garce 174 Measures which you were directed on the 7th Instant to provide.

We request that no time may be lost in setting up and Completing the remainder of the Water Casks. —

We are, Sir

Military Board Office, 8th August 1797. Your most Obedient Servants (signed) Dat. Kerr Secy to Committee.

To Messieurs Hunter & Hay

Gentlemen

The Proposal tendered in your letter of the 31st ultimo for supplying the Honble Company with 1200 Bags of Rice at 7½ Pagodas per Garce having been laid before the Military Board, and accepted by them in part, Sam to desire their Orders that you accordingly deliver agreeably to the Sample approved, and at the above specified rate four Hundred and fifty (450) Bags of Moogey Rice to the Garrison Storekeeper, which after Examination and Approval will be paid for — Salchery Rice not being of the sort usually

To the Honble Basil Cochrane

Sir,

Agreeably to your offer to the Committee of the Military Board of furnishing the Honble Company with Ten Candies of Rice more or as many as you can Spare at Twenty five (25) Pagodas per Candy, and Ten Garce two Hundred and Twenty eMaunds of Dholl at a Hundred (100) Pagodas per Garce, - I am to signify the Boards acceptance thereof on the Terms above Specified, with their desire that you deliver the same after Examination and approval, to the Garrison Storekeeper

I have the Honor to be,

Fort St. George

Military Board.

To the Right Honble Lord Hobart

Governor in Council,

Bea" Bea" Bea"

My Lord,

Having received an application from the Garrison Storekeeper for an advance of two thousand Pagodas to be made to him for the purpose of completing the quantity of ready dressed Provisions required for Foreign Service, we accordingly recommend that this advance be made to him

The Garrison Storekeeper having also laid before us a Statement of Receipts and Disbursements, on account of Provisions for the Expedition, the former amounting to Pag: 33000, and the latter to Pagodas 44394: 17: 55: leaving a balance of Pagodas 11394: 17: 55: in his favor, we have the Honor in consequence to report that the Provisions, and other articles mentioned in the Statement, have been examined by a Committee of our Board, and found to be of a good quality, with the Exception of the Sugar, which the Garrison Storekeeper has engaged to replace; and the onions, which having been provided some time ago, are mostly in a growing State and consequently

unfit

unfit for Troops, — We have therefore directed that the onions of this description be sold off, and replaced when necessary. a number of the Salt Fish, estimated at about Twenty Thousand, have been reported as being unfit for use, or of a kind not calculated to keep Long, the remainder being unexceptionable will be full as many as will be wanted — It appears that the articles of Biscuit, Ghee, Tamarind, Chillies, Garlick, onions, and Salt Fish were ordered by Government to be provided, as mentioned in a memorandum transmitted to our Board on the 7th of June last, and that the quantity of Firewood stated was contracted for with certain Merchants — with respect to the remaining articles they are mostly contained in a List delivered to the Garrison Storekeeper by Major General Braithwaite, and laid before Government whose authority through the Secretary Mr. Brodie avers, was given to him for providing the whole without loss of time — The Storekeeper having thus, it would seem, acted in conformity to written or Verbal Instructions, we conceive it is only incumbent on us to ascertain the quality of the several articles, which has been done, and it will therefore rest with Government to determine what further advance it will be proper to make to the Storekeeper on account of the Balance stated to be due to him for the Provisions &c.a which he has furnished by authority. —

We have the Honor to be,

My Lord

Your Lordship's

Fort St. George

very Obedient Humble Servants

Pagodas	44394.17.55	Pagodas	44394.17.55.

Fort Saint George
27th July 1797.

Errors Excepted
per James Brodie
Garrison Storekeeper

The Committee having perused the account of Receipts and Disbursements for the intended Foreign Service referred to their consideration at the last meeting of the Board and compared therewith the List of articles surveyed by the Committee, find that they are of a good quality with the exception of the Sugar which the Garrison Storekeeper has engaged to replace; and the onions, which having been provided some time since are mostly in a growing State, and consequently unfit for Troops. The Committee have therefore directed the Storekeeper to sell off such of the Onions as are of this description, but not to buy any other till further orders, as they can be always provided in the course of a few days: a great number of the Salt Fish have been rejected as not being fit for use, and part of them of a kind not calculated to keep long. It will therefore be necessary to ascertain the number which have been allowed by the Committee inadmissible before the Storekeeper can determine on the extent of his charge for this article, and measures have been taken by the Committee for that purpose.

It appears that the articles of Biscuit Ghee, Tamarind, Chillies, Garlick, onions, and Salt Fish were ordered by Government to be provided, as appears by the Memorandum transmitted to the Military Board on the 7th June last, and that the quantity of Shorewood stated in the account was contracted for with certain Merchants; with respect to the remaining articles, they were verbally contained in a memorandum delivered to the Garrison Storekeeper by Major General Braithwaite, and laid before Government whose authority, through the Secretary, Mr Brodie asserts, was given to him for providing the whole of them without loss of time. The Storekeeper having thus, it would appear, acted in conformity to written or verbal Instructions, the Committee conceive it to be only their duty to ascertain the quality of the several articles noticed

Major

To Major General Patrick Ross

&c. &c. &c. & Members of the Committee of the

Military Board

Gentlemen,

As Agent for Transports, and in obedience to your orders, it is my duty to be frequently on Board of the Transports to be employed on the ensuing Service during the present Embarkation — it will also be my duty to wait upon the Naval and Military Commanders at Sea, at all times when they may think proper to call upon me for information, or to communicate orders to Officers Commanding Transports, and the utmost diligence and attention on my part, to accelerate the disembarkation of the Troops Stores and Provisions at the Place against which the Expedition may be directed, will no doubt be expected. —

Under these Circumstances, I beg leave to suggest the propriety of my being allowed a small Boat with the necessary Lascars for the purpose of conveying me to such Ships and Vessels as may have occasion to visit me. Consequences as the want of such a Boat might impede the Public Service and put me to great inconvenience, I hope your Committee will recommend to Government to comply with my Request and to order that the Boat and the Lascars attached thereto shall be received on board the same Transport on which I embark myself.

I beg leave to state the Expences attending the Boat and Crew, for the Purchase of the Boat, 100 Star Pagodas, and the Lascars Wages one Tindal and Six Men at 15 Star Pagodas per month — to be found with Provisions the same as Sepoys or Gun Lascars. — I have the honor to be

Gentlemen

Madras
9th July 1797. —

P.S.

Since wording the above I have bargained with the Captain of the Houghton Indiaman for 60 Puncheons Containing each nearly 100 Gallons at 3 Pagodas p Puncheon - I have a Receipt from an Officer Commanding a Country Ship just arrived from Tuticorin for 30 Water Casks their dimensions not described

J. B.

Resolved in consequence that the suggestion of Mr Brodie with respect to the Ghee be adopted & that he be recommended to the Board to apply to Government to make him the advance of Pagodas 2000/ Two thousand as requested for the purpose of completing the quantity of Ready Dressed Provisions.

Resolved also that he be authorized to purchase the sixty Puncheons from the Captain of the Houghton

at

at the rate specified in the Letter. Resolved further that Mr. Brodie be strictly enjoined to have the Salt-fish objected to by the Committee picked from the rest as he will be held responsible that none but what are perfectly sound and good be put on board for the Troops —

In conformity to the foregoing Resolution was the following Reply —

Mr. Brodie
Garrison Storekeeper

Sir

We have the honor to acknowledge the — receipt of your Letter of the 31st Ult.o and in answer, to — acquaint you that we approve of your suggestion respecting the disposal of a part of the Pork for which Puppies cannot be obtained in Casks and shall Recommend to the Military Board to apply to Government to make you the advance you required for the purpose of completing the ready dressed provisions we also authorize you to purchase the sixty Puncheons for three Pagodas each. It becomes our duty to enjoin you strictly to have the Salt-fish objected to by the Committee picked from the rest, as you will be held responsible that none but what are perfectly sound and good be put on board for the Troops.

The

The Ceres and Talbot being reported by the Master attendant to be ready to Commence on Thursday to take in stores and Provisions — Resolved that the Commissary of stores and Garrison Storekeeper be informed accordingly and that the latter be directed to calculate the Provisions &c. for the number of Troops in the Statement Viz. 607 Europeans and 148 Native Followers on board the Talbot, and 825 Natives including Followers on Board the Ceres — The 20 Cookrooms already provided being insufficient for the accommodation of the Troops on board the several Ships the Committee resolve to recommend to the Military Board that 13 more Cookrooms be made of the same Construction in preference to the Plan suggested by Lieutenant Colonel Muat one of which having been shewn to the Captains of the Transports they have unanimously objected to it as being unsafe in the highest degree — Resolved also that more necessaries may be provided for the native Troops.

Read Letter from the Garrison Storekeeper dated 31st July. —

Major General Patrick Ross. —

President for the Committee ordered for the inspection of Provisions. —

Sir,

I have been honored with your Letter of the 29th Instant and shall attend to your directions relative to the Copper Pots and Measures. —

In respect to the Buppers for the Ghee I have at present only one hundred which on an average twenty Canvas — two hundred more I shall be able to supply in about ten days from this date — which will answer for one half of the Ghee in store (80 Candies) — I would recommend to prevent delay that the

The Committee have also directed 250 Bamboo Cutters to be made for the Native Troops being required from the peculiar hardness of the Areca Nut imported from Acheen.

Resolved that the Garrison Storekeeper be directed to have the Copper Pots new Tinned, and to fit the Ships in good Coppers as Casks cannot be provided without appropriating the best of those intended for Water, — but the Garrison Storekeeper be further directed to provide and put two Quarts, two Pints, and one Gallon measure, and Tin Dram Cups to be put on board each Ship (with the exception of His Majesty's Ships) on which Europeans are Embarked. —

The Sugar having been found on Examination to be of an indifferent quality and dirty, the Storekeeper to be desired to replace it with a better Kind. —

The onions that are growing and unfit to send on board Ships to be immediately sold off, and the same quantity laid in at a future Period. —

Resolved that the Garrison Storekeeper be instructed to furnish the Agent for Transports with Lists with the Tonnage annexed of the different Articles of Provisions & Water that have been and are to be sent on board the several Ships daily. —

The Commissary of Stores in like manner to furnish the Agent of Transports with Lists of the several Articles of his Department that have been and are to be sent on Board the different Ships daily with the Tonnage annexed —

Conformable.

Conformably to the above Resolutions dispatched the undermentioned Letters.

Mr. Brodie

Garrison Storekeeper

Sir,

We have to request that you will have the Copper Pots intended for the use of the Troops new Tinned without Delay.

We desire likewise that good Dippers be immediately provided and the Casks put into them as Water Casks cannot be spared.

You will provide two Pints, two Quarts and one Gallon measure, and six Dram Cups, and to be put on board each Ship (His Majesty's Excepted) on which Europeans may be embarked.

The Sugar having been found on examination to be of an indifferent quality and dirty, we consider it unfit for the use of the Troops, and therefore desire it may be replaced with a better Kind.

The onions that are growing are unfit to send on Board Ships you will cause to be sold off, and to be replaced with an equal quantity at a future period of which you will have timely notice.

You will be pleased to furnish the Agent for Transports with an account of the quantity of Provisions intended to be sent on Board each Ship with the Tonnage annexed as well as the quantity that has been sent on Board previous to this date —

We,

29th July 1797

The Committee in consequence of a Communication from the Right Honorable Lord Hobart, desiring as the most eligible mode for supplying the Articles of Provisions required to complete the Statement that the Military Board would immediately advertise Proposals to be sent to the Secry on or before the 5th August for furnishing them by Contract, with the exception of the ready dressed Provisions, which it may be necessary to order immediately - The Committee Conceiving that no time should be lost in effecting this Object, and being fully empowered by the Board to adopt the most expeditious means for forwarding the supplies required for the intended Service, have in Consequence desired the Secretary to publish the following advertisement by means of Hand Bills and in Malabars at the different Gates. -

Notice is hereby given that Sealed Proposals will be received at the Military Board Office addressed to the Secretary on or before the 5th day of August next for furnishing by Contract the following Articles of Provisions required for the Honorable Company's Use

Bengal Rice -	120 Garce
Salt	13½ Garce
Flour -	89 Candies
Raisins or new Dates	9½ Candies
Peas 1 Garce	260 Marcalls
Brown Sugar	57 Candies
Mustard Seeds -	4 Candies, 12 Maunds
Dholl	9 Garce
Ghee	155 Candies
Tamarinds	98 Candies

(over side.

Cowandes Seeds	20 Candles
Cauliflower Seeds	10 Candles
Garlick 7 Candles	19 Maunds
Onions 12 Candles	19 Maunds
Turmarick 7 Candles	12 Maunds

Proposals will be received for the Articles separately and for a part or the whole of such as may be most suitable to the Proposers, but the Contract must Contain an engagement to deliver the whole or such part within 3 days from the 3rd August next - Masters of the different Articles with their Respective prices to accompany the Proposals - The several articles will be minutely inspected on delivery by a Committee of the Military Board and such of them rejected as do not answer the Master, and the Contractor is to hold himself bound to replace them immediately under Penalty of forfeiting the stipulated rate for the Articles which may not be supplied -

By order of the Military Board -
(Signed) Frederick Pierce
Secry. M. Bd.

The above advertisement Corresponds in every particular with the date and terms of the instructions of the Right Honorable Lord Hobart - to which he added that the sanction of Government should be returned -
Resolved to direct the Garrison Storekeeper to provide the Ready Dressed Provisions without delay Viz. Bread 1 Pound 2 3/4 Mercalls at 5 1/2 Mercalls per Pound and 1 1/2 lb 5 Pound of Cabbly or Stone be immediately dressed

directing the attention to my instructions would be necessary.

Your orders on that head, as well as the nature of my present situation, rendering it necessary that I should visit the transports frequently, I beg leave to suggest the Expediency of my being allowed one of the accommodation Boats for that purpose, as the Common Boats of the Port would be so long in conveying me from one Ship to another, that much of my time must be lost in Consequence.

As it is my particular Wish to keep as Correct and full an account as possible, of every thing shipped off for the Expedition - and as in doing so I must inevitably incur a Considerable Expence for Stationary and Couriers, I beg leave to request that you Gentlemen, may have the Goodness to Recommend to Government, that I be permitted to draw such an allowance, in order to defray that Expence, as you may deem adequate thereto.

I have the honor to be
Gentlemen
Your most Obed.t humble Servant

The Committee taking the above Letter into Consideration Resolved to send the following Answer -

To

To Mr. Henry Hall

Agent for Transports

Sir,

We have to acknowledge the receipt of your letter of the 27th July, and to acquaint you in answer, that the account of the Military Stores Shipped and to be Shipped will be furnished by Captain Scott, and of the Provisions by the Garrison Store Keeper on your application.

With respect to the Stores received on board the several Ships, we conceive you should obtain a Daily account of them from the Gangway-Book and from the Commanding Officer on Board each Ship, who have been directed to attend to such Instructions as you may give them for the Stowage &c.

In regard to your application for the accommodation Boat we have only to say, that it does not depend upon us to Comply therewith.

We shall recommend your being allowed one Conicoply for each Ship during the time such Ship is receiving Stores and Provisions, and one Native Writer to assist in making up the daily accounts the actual Expence incurred for Stationary will no doubt be admitted.

As our Committee will assemble daily at 10 Clock at the Commander in Chiefs House in the Fort you will there have an opportunity of Communicating with us in person on any matter Relative to Your Department, upon which You may Require information. We are

To Major General Patrick Ross.-

President &c. &c. &c. Members of the Committee appointed to superintend the Embarkation of the intended Expedition.

Gentlemen,

I have the honor to acknowledge the receipt of your Letter, dated the 26th Instant and in reply to its Contents, beg leave to point out the several means and documents which I conceive necessary to enable me effectually to carry your orders into Execution.

As some part of the Stores have been already shipped, and as both Stores and Provisions may be sent off in the intermediate time I presume it will be necessary that the different Persons who have the immediate superintendance on Shore, shall be ordered to furnish me with an exact account of the Species and quantities of all Stores and Provisions actually shipped previous to the Day upon which they may receive your orders to do so, and from that Day an exact account every evening, of the different Articles sent off in the course of the Day to each Ship.

It will be also necessary that the Officers Commanding on board the different Ships shall

shall be ordered to furnish me with an Exact account of the Provisions and Stores received on board previous to the day upon which they receive your orders and from that day an exact account every Evening of the different articles received in the Course of the day with remarks explanatory of the state and Condition of the Provisions and Stores, so far as the external appearance of the Packages may enable the Officers Commanding on Board to judge, observing to state in their Remarks the particular parts of the different Ships in which each description of Stores and Provisions shall have been stowed. —

I am furnished with the Documents mentioned I shall be enabled to make a Comparative Statement and thereby ascertain whether the account given of the Articles sent off, and that of those received on board Correspond If not the being in possession of this information will enable me to get the error Corrected before I make the Report required in your Letter and before I make such detailed entries in my own Books as may prove of Public utility hereafter —

In order to enable me to give the necessary directions to the Officers Commanding Transports respecting the particular mode of stowage, it will be necessary to furnish me with a List, Comprehending under Distinct Heads, an exact account, or as nearly so as Circumstances will permit of the different sorts, and the quantity of each sort of Stores and Provisions intended for each such vessel and your order to those Persons

Mr Henry Hall
Agent for Transports

Sir,

Having received intimation through the Secretary of Government of your appointment as Agent for Transports and that you were directed to obey such orders and Instructions as might be given you by this Committee respecting the Embarkation and Disposition of the Government Military Stores &c.a we have in Consequence to desire that you will visit daily all Vessels that are appointed to receive Stores or Provisions the receipts for which

Resolved to lay the same before the Military Board, and to call their attention to the disposition of the four Extra Ships which it is proposed by Government shall be sent to Pondicherry in sufficient time, after being laden with their proportions of Stores and Provisions, to convey the Europeans and Native Troops destined for Foreign Service from thence to Madras.

Read Calculation of Water necessary for the Troops destined for foreign Service.

Calculation of Water for the Troops ordered to be in readiness for Foreign Service.—

	at 3 Quarts per man per Day for 2 months		at 1 Gallon per man per day for 2 months	
	Tuns	Gallons	Tuns	Gallons
Butts of Water at 116 Gallons each to be supplied per Regulate	3395.	65.	4228.	
Deduct the number of Casks that can be supplied				
By Mr Brodie	520			
From Bombay	510			
By the Master Attendant	208			
30 half Leaguers @ 70 Gallons each	41			
Mr Brodie . 88 Pipes Casks @ 80 do each	60			
By the Town Major	100.			
	1439	—	1439	"
Remains	1956	65.	2789.	
Deduct for 1878 men supplied by the different Ships	728.	62	971.	44
Remains to be supplied	1228.	3	1817	72

Resolved

Resolved also to submit to the Board a Statement of the total number of Water Casks that can be procured, which on the Calculation of one Gallon per Man for two Months leaves a Deficiency of 2730 Butts - but taking into Consideration the little probability there is of procuring Casks this number - The Committee Conceive that the Allowance may with great Safety be reduced to three Quarts per man which will consequently reduce the number of Casks required to 1950 - from this number is to be deducted water for 900 Europeans which the Admiral in a Communication to the Governor, has agreed to take on board His Majesty's Ships, and it appears from the Report of the Master Attendant that Casks for 978 more may be expected from the other Ships to these are to be added the Waters contained in twelve Tanks ordered to be made each containing 10 Butts, thereby diminishing the aforesaid number of 1950 to 1108, under these Circumstances it will perhaps be deemed expedient to recommend to Government as a measure of necessity, that the quantity of water be limited to three Quarts per Man per Diem for two Months, unless some favorable Circumstance should occur to provide the means of extending the Allowance.

26th July 1797.

Resolved

of Corps &c &c in a equable to the allotted proportions in the new Regulations for Field Service, and as no additional Tents are to be carried to supply the variety of contingencies which may be expected to occur added to the probability of a large Body of Seamen with their Officers being sent on shore to act with the Land Forces who will look to the Commanding Officer for accommodation it appears to the Committee that Expending the number of Tents might subject the Service to Considerable inconvenience, as every Extra Demand for Camp Equipage must be supplied by drawing Tents & proportionably from Corps &c &c

The Committee having seen a Tin & Kettle and Platter of the number provided by the Town Major, are of opinion that they will answer perfectly well for a Mess of five Men and that the distribution of them to the European Troops should be regulated accordingly. —

Patrick Ross
President

Resolved, that the following Minute be sent in Circulation for the immediate Consideration of the several Members of the Military Board

The Committee of the Military Board, consisting of the Chief Engineer, Military Auditor General, Quarter Master General and Adjutant General appointed to inspect and report the state of the Provisions intended for Foreign Service having seen the Papers sent down by Government and now in Circulation and it appearing that no time should be lost in entering into the Consideration thereof.

They

they therefore request to be informed if it is the wish of the Board that they should Consider the Papers abovementioned as Connected with the Intention of their original appointment, and that they should proceed to examine and Report upon them accordingly in which case they are desirous of having Lieutenant Colonel Hall joined to the Committee, and that Government should be requested to nominate the Master attendant to act with them, his assistance being indispensably necessary on matters which relate to the Provision and Tonnage of shipping &c.a

Fort St George
21st July 1797.-

(Signed) Patrick Ross
President

The Committee adjourned until Saturday at 10 O'Clk at which hour it is agreed to meet every day for the more expeditious dispatch of business.-

22nd July 1797.- Read Letter from the Secretary of the Board to the President of the Committee.-

To Major General Ross

Sir,

I am directed by Lieutenant General Harris President of the Military Board to inform you that the Committee of which you are President is to be Considered an executive Committee, and to give such directions as may appear to You necessary without waiting for the Board's authority for so doing, reporting only what shall have been done

at-

statement be laid before Government, in order that the necessary measures may be taken for supplying what is yet wanting.

The Committee have made every Inquiry in their power as to the probable means of obtaining a further supply of Water Casks as well as the best substitute to be procured for the number that may be afterwards deficient. Two months water for the Troops ordered to be in readiness requires 4228 Butts of 116 each after deducting 300 expected from Bengal: of this number Mr. Brodie can supply 520. 300 are expected from Bombay. The Master attendant has engaged to furnish 208 Butts and Pipes and 20 Half Leagues. 88 Pegu Jars, each containing on an average 80 Gallons can be procured and will serve very well for holding water for present Consumption, the Garrison Storekeeper has 38 of this number of Jars already in Store. From the above the following statement may be deduced.—

Number of Casks required of 116 Gallons each		4228
Mr. Brodie can supply	520.	
Expected from Bombay	300.	
Master attendant	208.	
20 Half Leagues at 70 Gallons each equal to Butts	41.	
88 Pegu Jars at 80 Gallons each equal to Butts about	60.	
		1129
Deficient		3099.

The Committee having consulted the Master Attendant with regard to the practicability of constructing Tanks to contain Water on board the Ships, he has engaged to

to provide from 50 to 300 by the 25th August each to Contain 10 Butts of Water and to be of the following dimensions 7 Feet long 6 Broad, 4 Deep — The price of each of these Tanks will be about 100 Pagodas - and if it is determined that they shall be made the Master Attendant requests to be allowed an Havildars Guard of Sepoys to assist him in collecting Artificers for that purpose as without this help, he will not be able to get a sufficient number - suppose 20 Tanks to be provided equal to 200 Butts there will then remain about 2299 Casks still to be collected and the Committee cannot suggest any means at present by which even a part of that number can be soon supplied unless Indiamen should arrive from Europe on board of which there must be a number of spare Casks as they generally bring Troops and it is understood that the quantity of water Calculated for all the People on board is in general 6 months — The Extra ships may also be called upon for any surplus Casks which they may be able to spare, and it is also to be considered that if the ships of War should convey any part of the European Force, the number of Casks will be proportionally lessened.

As the Lists before the Committee do not include the stores &c^a for the Engineers Department the directions of Government should be requested on the subject as the provision of Artificers and arrangement of stores will be a task of some time.

Appendix

Respecting the reduction of the Camp Equipage recommended by Government, it may be observed that the Calculations are made according to the strength

of

Resolved, that the necessary Instructions be accordingly given to the Agent for supply for providing with all possible expedition, the articles of Military Stores authorised by Government, the Estimate for which amounts to Pagodas 11261.-21.-20; and that a recommendation be in consequence made to Government to authorize an immediate advance to the agent of two thirds of the amount thereof, being Pagodas 7507-28.-12; and the remaining third after delivery and approval, of the articles — which deviation from the established mode of making advances upon Periodical Indents, the Board are induced to propose from the urgency of the demand for the Articles, as well as, to guard against failure, or disappointment.

Resolved, that the Commissary General of Stores be directed to prepare for Service, the ordnance, and Military Stores, approved by Government, agreeably to a List thereof to be furnished to him by the Secretary. —

The Committee having taken into Consideration the Letter of Government of the 7th and having been furnished by the Garrison Storekeeper with a Statement of the Provisions which he can supply from the Public Store towards completing the Quantity calculated for the Troops ordered for Foreign service, as well as of the quantity remaining to be provided, they recommend to the Board that a Copy of this

Statement

in the 7th. Ultimo — you will also call upon the Garrison Storekeeper for a return of the Salt Provisions, and other articles, which he can supply from the Public Stores, and lay before us a complete return of the whole of the articles remaining to be provided by this Government.

We have issued orders to the Military auditor General to prepare the Form for keeping the account of Issues of Provisions &c. during the Voyage, agreeably to your suggestion.

We desire You will issue the necessary Instructions to the agent for supply for providing the articles mentioned in the Statement No 4, accompanying your Letter — The ordnance and Military Stores, as per Letter No 6. we desire may be delivered in readiness but we wish to have your opinion whether or not a reduction might be made, without prejudice to the Service, in the Number of Tents inclosed in the Statement No 5. —

Enclosed is a List of articles which the Town Major has been desired to provide for the use of the Troops. —

We observe with concern the probability there is of a considerable Deficiency in the article of water Casks, and desire to be furnished with your opinion of the measures that should be taken to avert the serious Inconvenience that must result from the want of so important an article — we are in daily Expectation of a supply of 300 Leaguers from Bombay. —

We are

Gentlemen

Your Most Obedient Servants

/signed/ Hobart.
Geo: Harris.
Edward Saunders

Absent.

The Military auditor General.— Indisposed.—

Reconsidered Returns of Camp Equipage, Stationary, Artificers, and Stores, required in the Engineers Department.—

Resolved to forward to Government the Returns of Artificers, and Labourers, Stores, and Stationary, &c. laid before the Board by the Chief Engineer, as being required for the Detail of His Department about to be employed on Foreign Service.—

A6

At a Military Board.

Present

Lieutenant General G. Harris . . Commander in Chief

Present

Major General D. Ross. . . . . Chief Engineer

Major General Thomas Geils . . Commandant of artillery

Thursday the 19th of July 1797 Major General N. Sydenham . . Military Auditor Gen.l

Lieut: Colonel Jno Richardson . Quarter Master General

Lieutenant Colonel Ely Close . . Aqudant General

Lieutenant Colonel George Hall . Commissary Gen.l of Stores

Read letter, and Enclosure, from Government

dated the 7th Instant.

To Lieutenant General Harris.

President &c Members of the

Military Board

Gentlemen,

We have received your Letter of the 24th Ultimo, and approve the principles upon which you have formed your calculation of Provisions &c required to be laid in for the European, and native, Troops, destined for Foreign Service. —

We desire you would appoint a Committee of your Board to proceed on an Inspection of the Articles contracted for, and those ordered to be provided by the Year or Articles, agreeably to the Intimation conveyed to you on the

Return of Stationary in the Engineers' Department for the intended Expedition.—

Fort St. George
25th June 1797

(signed) Patrick Ross
Chief Engineer

Return

Resolved, that the List be forwarded to Government, with a recommendation that the Provision of the articles be accordingly authorized.

Reconsidered Statement of Tents Equipage Tent Lascars, Bamboo-Coolies, and artificers required for the Corps, and Departments, destined for Foreign Service.

The Statement with the Exception of Bamboo-Coolies, which Description of Followers the Board think altogether unnecessary for the intended Service, being approved. —

Resolved, that Copy thereof be laid before Government.

Reconsidered List of Ordnance, and Military Stores, required for Foreign Service. —

The List being approved.

Resolved, that Copy thereof be transmitted to Government as being necessary, in the Board's opinion, to be sent on the intended Expedition. —

The Commissary General of Stores laid before the Board, Indent on the Gun Carriage &c. Contractors for 25 escalading Ladders, 40 Gun Platforms, and 16 Mortar Platforms, to be provided for Foreign Service.

Resolved, that the Indent be passed, and sent to the Agent of the Gun Carriage &c. Contractors to be complied with. —

At a Military Board

Present

Major General Ross ... ... Chief Engineer.

acting President.

Major General Sydenham ... Military auditor General

Thursday Lieut: Colonel Richardson Quarter Master General

29th June 1797. Lieutenant Colonel Close ... Adjutant General

Lieutenant Colonel Hall Commissary Gen: of Stores

Absent

The Commander in Chief —

The Commandant of Artillery

The Chief Engineer lays before the Board Returns of the Proposed Establishments &c &c for the Engineers Department on the intended Expedition —

Returns

Resolved, that the Secretary be directed to make the distribution necessary for carrying into effect the Establishment of Lascars allotted by the new Comp. Equipage &c. Regulations to the Naval Stations. Also to call to the Prudence forthwith two thirds of the total of the new Establishment allowed to each, directing that such proportion be taken by a fair, and impartial draft, from the Whole. —

Resolved, to represent to Government the necessity of replacing the Lascars to be withdrawn from the Duties of the different Stations by enlisting them on the Spot, and to recommend that authority be accordingly granted for the Same, to the extent that will complete the Establishment allotted for the Ordnance and Store Department. —

Read List of Articles of Military Store Required for the intended Expedition by Sea, to be furnished by the Agent of Supply —

Diet Table for the European Troops on board Ship, being approved, with exception of the three 6th Rooms being of the same Construction, of which two Covered, as generally on Board Ship, and one of the third Recommended by Lieut Colonel Muat, are proposed to be allotted to such Ships —

Resolved, that the Calculation of Provision and Table of Diet, be forwarded to Government with the Board's recommendation that the same be adopted —

Resolved, to submit to Government a Recommendation that all Private Followers (the proportion to be allowed to each Rank being detailed in General Orders) be in the first instance supplied from the Public Stock on Board but that the Individuals to whom they respectively belong be charged with the Amount thereof, in like manner as was usual in regard to private Followers in the Field.

Read Statement of Lascars, shewing the seperate Establishments of Tent and Store Lascars, allowed by the New Regulations to each Station; also the present Establishment, Surplus, Deficiency, and proportion to be drawn to the Presidency for Foreign Service. —

NB Cook Rooms lined with Tin 3 each Ship
Necessaries . . . . . 3 each Ship
Stones for pounding curry stuff 1 per 50 Men consisting of a roller and flat rock
Rice to be put on Casks and not in Bubbies
Copper Cells 2, one to boil 50 Lbs of Rice the other 15 Lbs to be sent on Board with each Cook Rooms —
Two Hogsheads of Vinegar to be put on board each Ship for Sprinkling the Lower Decks occasionally —

Signed Wm Sydenham
By Close

also on the first landing of the Troops, in case there should be a difficulty of providing for them in any other manner. —

We have also attended to the other points in Lieut. Colonel Munro's letter respecting Cook Rooms, Necessaries, and Stones for grinding Curry Stuffs, and have accordingly recommended that 3 of each of the two former, and 1 Set to every 80 Men of the latter, be fixed on board every Ship. In considering however the construction of the Cook Rooms, after seeing those already made by the Master Attendant, we are inclined to give those the preference altho' more expensive not only as being most secure, but affording equal accommodation with the Cook room proposed by Lieut. Colonel Munro, as each admits of two Copper Boilers being placed in it sufficient to dress 65 Lbs of Rice at a time, which is a point of great convenience to the Native Troops, as two boilings in the three Cook Rooms on this plan, will dress Rice for 390 Men, and three boilings for 520. —

Provisions being calculated for the private Followers, it will be necessary for the Board to consider whether they are to be supplied at the publick expence, or afterwards. —

Rice

Receiving an Article easily transported, the Board may possibly be induced to Recommend to Government, that a further provision of it be sent, in order to be secure against every Contingency.—

We beg leave further to suggest that the Officer, or other person, who may be placed in charge of the Provisions on board each Ship, may be furnished with a Form prepared by the Military Auditor General, for keeping the accounts of Issues during the Voyage, so as to exhibit, on Landing, a clear Statement of Expenditure, and Remains, for the Commissary of Provisions; and for the satisfaction of the Officer Commanding the Expedition.—

/Signed/ Wm Sydenham

Calculations—

the Board the expediency of sending Eight (8) Spare Platforms for Guns, on a supposition of that number being probably required for Guns to be landed from the Shipping.—

Agreed, that the Suggestion of the Commandant of Artillery be adopted, and that the Commissary General of Stores do Indent for the same on the Gun Carriage Contractors.—

Read Minute of the Military Auditor General, and Adjutant General, dated 26th Instant—

Minute of the Military Auditor General, and Adjutant General, in Special Meeting 26th June 1797.—

We have the honor to submit to the Board the accompanying Statement of Provisions for the European, and Native, Troops, ordered to be in readiness for Foreign Service, including a calculation for the Number of public, and private, Followers, estimated in the proportion allowed to the Troops employed against Trincomalee, together with a Diet Table proposed for the European Troops on board Ship. From this Statement, and Table, it will appear, supposing the Voyage to be performed in 2 Months, which is the general passage for a Fleet, that 6 Months Rice for the Europeans, calculated at One lbs each per Day, upwards of 3 Months Biscuit, and a considerable quantity of

of Flour, will remain on their arrival at the place of destination, besides Salt Provisions for 4 Months at 1lbs each Man ℔ Day, and a reach equal to seven Months consumption.

The Quantity of Water is limited to 2 Months, as well on account of the difficulty of procuring Casks, as from the presumption that the Fleet will not find it inconvenient to Water at Prince of Wales's Island, or Malacca, at both which ports, it appears from the Inquiry we have made, there are the means of supplying a Number of Ships in a very few days.

It has been usual to send Earthen Chattus on board for the European Troops, but as the Quantity required is very great, on account of their being liable to break, we would recommend that Wooden platters, if possible, might be provided at the rate of one for every three Men.

In calculating the Provisions for the Native Troops, exclusive of Rice, Dholl, and other principal Articles, for 6 Months, we have adopted the idea suggested by Lieut. Colonel Munro, and recommended by Major General Braithwaite, by specifying a Quantity of ready Dressed Provisions for 30 Days to be first on board, and to be served out in bad Weather, when other Provisions cannot conveniently be dressed and

13. Camp Equipage for the Troops not included in this list.—

(Signed) George Hall.
Com: Gen Stores

Resolved, that the alteration suggested therein with respect of the Sand Bags and Dungaree, be adopted.—

Resolved, that the Consideration of the proposed Reduction in the number of Shells & Mortars to the several descriptions of Mortars, be deferred untill Major General Gelb, shall be present at the Board; but that the List of Articles be furnished to the Agent for supplies, in order to his affixing the different rates.—

Resolved, that Round shot of 1 lb weight sufficient for one hundred (100) Rounds of a 13 inch Mortar, be added to the List of Ordnance Stores to be prepared for Foreign Service.—

At a Special Military Board

Present.

Lieut. General Harris ..... Commander in Chief

President

Major General Ross ..... Chief Engineer

Major General Fitch ..... Commandant of Artillery

Monday 26th June 1797 — Major General Aylesham .. Military aid de Camp

Lieut. Colonel Richardson .... Quarter Master General

Lieut. Colonel Close ..... Adjutant General

Lieut. Colonel Hall ..... Commissary General of Stores

Reconsidered Minute of the Commandant of Artillery, and Commissary General of Stores, dated the 20th of June 1797.

Agreed, that neither Spare Guns, Carriages, or Ammunition, are necessary; but that the number of Mortars specified in the List of Stores, be sent on the intended Expedition.—

Agreed that two hundred 200/ Shells for each of the 13 inch Mortars, and four hundred 400/ for each of the 10 inch, and below that Calibre, be the proportion to be sent on Foreign Service.—

The Commandant of Artillery suggests to the

that an Ordinary sized Man can lift, it would be better to substitute small in their Room, which has accordingly been done, and 50,000 entered in the List, and as in particular situations, it may be difficult to get wood proper for making Fascines, that Dungree and other Materials proper to make them up to the Extent of 100,000 Sand Bags, be likewise entered in the List, that may eventually be made up and substituted, in situations where fascines are not to be had.

Submit to the Board whether spare Muskets & Accoutrements, and Manteletts, under present Circumstances, need be sent.

And whether 200 to each of the Heavy Mortars, and 300 Shells to those from 10 Inch and below, would not be sufficient in room of the quantity detailed in the List.

The Commandant of Artillery & Commissary General of Stores, not having a Plan of Manilla before them, do not presume to offer an opinion whether the proportion of Ordnance may or may not, be adequate to the service which such information might enable them to give, they have therefore requested of the Secretary either to send such Plan as he may have in his possession, or apply to Major General Ross for the purpose, and previous to the next Meeting of the Board, they will Compare the List again, in Communication with this Plan, and offer such suggestions to the Board as a further Consideration thereof may enable them.

Resolved, to recommend to the Board that a Copy of the List be sent to the Agent of Supply to affix thereto the Value of the different Articles.

(Signed) Thomas Geils
George Hall.

Fort St George
19th June 1797 -

(Signed) Jno Richardson
Quarter Master General
to the Army -

Resolved that the Quarter Master General's suggestion in regard to Packing and Marking the Tents to be sent with Corps and Departments on Foreign service be adopted, and that the Commissary General of Stores be instructed accordingly.—

Resolved that a Committee consisting of the Quarter Master General, Commissary General of Stores, and Secretary, be appointed to ascertain the number of Lascars that will be required for Corps & Departments proceeding on Foreign Service, and to prepare a statement of the several proportions which can be withdrawn for that purpose from the different stations on the Coast.

Resolved to represent to Government the difficulty that will attend the embarking Pucka Bullocks on the Expedition, and to recommend that authority be given for a double Number of Hand Beasties being substituted by Corps and Departments.—

Read Minute of the Commandant of Artillery & Commissary General of Stores, dated 18th. instant

June 18th. 1797.—

The Commandant of Artillery & Commissary General of Stores, having met agreeably to the resolution of the Board, to determine on the Ordnance Stores to be supplied from the Arsenal on account of Foreign Service and after an attentive Examination of the List of Articles that had been previously made out.

Resolved that as the large Sand-Bags, when filled, are considerably beyond the weight that,

and that they shall, with every description of Regimental equipment, be put on Board of the same Ships on which it is intended the Corps & Department to which they respectively belong are to Embark.

Should this suggestion be approved proper persons directed to take charge of the Tents which are to be received from Corps in lieu of those provided as above, and recommended to be sent on Board of Ships previous to the Embarkation of the Troops, they would replace in a great degree the draught on the Arsenal, and the Tents so delivered in, after having undergone a proper inspection and Repair, be again ready for service.—

That as some Arrangements with the families, and Connection of the Lascars &c. may be necessary I would Recommend that such Lascars as are intended for the service should be immediately selected and formed; and that the required number of Bamboo Poles, Artificers, and Cuckallas, should without delay be entertained.—

From the impracticability of the Cuckallies taking Bullocks on the intended service, I would advise that a double proportion

of men be allowed, and a proper quantity of Beasts Baggs be made up in consequence; and as the short interval between this and the period the Troops will probably embark, must render it obvious that not a moment should be lost in providing and arranging every part of the equipment. I should hope that immediate orders will be given, agreeably to the above observations, as well as on every other Circumstance dependent on the Military Board. —

Military Board
19th June 1797. —

(Signed) J. Richardson
Quarter Master General
of the Army. —

Statement

Quarter Master General — Camp Equipage — Public and Private Followers — and Tonnage —

Resolved that the Commissary General of Stores be directed to Indent on the Agents for supply for eight hundred (800) Tin Jailes Barrels for the purpose of stowing Musket Ammunition for the use of the Troops to be employed on the intended Expedition. —

At a Special Military Board

Present

Lieutenant General Harris — Commander in Chief

President

Major General Ross — Chief Engineer

Monday the 19th June 1797 —

Major General Shydenham — Military Aud.r General

Lieut Colonel Richardson — Quarter Master General

Lieut. Colonel Close — Adjutant General

Lieut. Colonel Hall — Commissary Gen.l Stores

Absent

The Commandant of Artillery

Read Minute of the Quarter Master General dated 19th instant with Statement of Camp Equipage Tent Lascars, Bamboo Coolies and Artificers required for Corps and Departments intended for Foreign Service. —

Agreeably to the resolution of the Military Board on Meeting 12th June 1797, I have prepared an estimated Statement, calculated on the present strength of Corps, of Camp Equipage, Tent Lascars — Bamboo Coolies, Artificers and Puckallies, that will be required for Corps and Departments (with the exception of His Majesty's 33rd Regiment & Bengal Marine Battalion) on the intended Expedition

The

The probable vicissitudes that Troops may be exposed to on distant foreign Service, induces me to give it as my opinion that a particular attention should be paid to the state of the Camp Equipage, and as it is a Circumstance so closely connected with the Health and Welfare of the Army I should hope the Board will approve and adopt the following suggestions, calculated upon Considerations of Public Convenience, and which may eventually prove of the greatest Consequence of the Service. —

First. as the Troops arriving from out stations must remain encamped until the Moment of embarkation, and as the Hurry that must necessarily attend the use of proceeding on foreign Service, will render it exceedingly embarrassing and inconvenient to have the Camp Equipage worked, comes with the Corps, Just in a proper state of repair, together with the little service that can be expected from old Tents that have been thrown in a hurry on Board of Ship, I would recommend that the Troops, and Departments for the intended expedition should be provided with new Tents Complete from the Arsenal.

That the Tents for the above purposes should be immediately packed, and got in readiness —

That on the outside of the Gunny Bags, the Regimental Marks of the Corps, Departments, to which the Tents are assigned, shall be affixed,

(and

adherence of most of the European transport masters to their own Customs, for which they will on most occasions fight on hand Battle, if any latitude be given. —

But I shall cut short at present if any thing further occurs I will trouble You with it. — In the mean time request that you will have the goodness to lay this before the General. —

I remain,

My Dear Sir,

very truly Yours

(signed) George Stuart

Monday 12th June 1797. -

Read Letter from Mr. Secretary Wood dated 7th June -

The Board resolves itself into a Committee of the whole Board, for the Consideration of the subject under reference from Government, and in order that no time may be lost in preparing the necessary information to be laid before Government.

Resolved also, that each Member do do the such Portion of the Business as is hereunder detailed -

The Chief Engineer — Examen de l'Etat Estimé and Journaux.

Military Auditor General and Adjutant General — Calculation of Estimates, Detail of Troops, & the Returns for the same ..

Commandant of Artillery, Commissary General Stores — Ordnance Return & Stores & what is wanting for the Service

eat with them, whether are the inland Gentoos and Malabars more partial to their Marine Brethren. and the Paryavis being unanimously excluded by all these must in every case have a Place for themselves.

In regard to the Construction of these Fire Places, they are the same for all Casts a better invention hath perhaps since been fallen upon, but that made use of in the Voyage to Bombay, was extremely simple, and appeared to answer the purpose as sufficiently well The Cook rooms then were no thing more than strong Wooden trays made of thick Plank they were four feet square and two feet deep filled to the height of eighteen inches with clean dry sand from the beach, and furnished with a few Stones or bricks for setting the Pott upon, over the holes in the sand in which the fires were made. three of these will be required for each transport agreeably to the classing of Casts before mentioned and may be placed on the upper Deck close to the Gunwale so secured as to be made fast for the time, but occasionally moveable either in a row with small intervals between, or in Places more distant from each other, as the convenience of the Ship may admit of each of such frames will allow of half a dozen pots being boiled at once which is fully enough their being lined with tin would certainly be an improvement, as being a further security against taking fire, although I had neither time nor the materials in their construction at Anjengo for such precaution. nor was there any accident happened as no Cooking in the night time was permitted. Covers or roofs to them, are inconvenient and indeed useless, they are inconvenient because they render them more cumbersome to the Ship, and are in the way of the ropes and prevent the Slings from getting round the

the three open fires to watch their Cooking and they are useless because in a Storm they will not render their Cooking places more serviceable, and as a Stove Cooks by shut over the hole before the Kindles the fire and covers the Pot with an earthern plate or Dish Cooks as well above never interrupts his Cooking ...

In regard to the distribution of water there arises no difficulty whatever on account of Casks, for on the well known principle that an inferior will receive any thing from the hand of a Superior, tho a Superior will get from an Inferior nothing more is required of the Ship than that one Cask or two as may suffice for expence of the Voyage be placed any where the most convenient, and that the Commanding officer orders a Royal foot or Centry to attend to serve it out from the brass Cock as calls for, a Seaman will receive it from these although they would not from a Captain. —

With respect to Berths too little, indeed, no attention has been hitherto paid to the accommodation of Native Troops at Sea and so much the worse they have been unnecessarily forced to go to the Head of the Ship in common with the Crew whether Europeans or Lascars. This must be attended with very obvious disagreeables, and I have known some of them suffer very much in Health from reluctance to it, there surely can therefore can be no objection / the Expence being next to nothing / in getting three constructed for each Transport such as are commonly seen hung over the sides of all the Country Ships Commanded by Natives and to have them hung over before the Embarkation, under the Commander chuses, I know no reason why this has not always been done, except the Shipbuilders

no hooks

There are four sorts of them easily procurable which may best answer the purpose, they will neither sour nor spoil any thing they might come in contact with, an assortment of each accompanys this, as follows.

No. 1 is a paste cut into small thin bits made of Rice, which the Natives of all Casts and descriptions from the Brahmin to the Paryair, and the Moormen also, are extremely fond of, It is now sold in the retail shoottgies for one fanam the Madras Measure. It is named in Moors Choodway in Gentoo Attuchoolloo, and in Malabars avil.

No. 2. is Rice first swelled a little in water and salt or in Sea water, and then parched over a slow fire. It also is eaten by all Casts, although not so substantial as No. 1 which I believe they in general prefer to it, It may serve however for a change, and is perhaps a lighter food, it is also somewhat cheaper.

In Moors it is named Chawulda Moormoory, in Gentoos Beyum Boorogoolloo, and in Malabars Arey Poory.—

No. 3 is a large kind of Gram, probably what in the List is called Boot-gram, first parched over a fire, then soaked in Salt and water and afterwards dried in the sun. It seems a strong heartening food, is eaten by all Casts, is now retailed for one fanam the Madras Measure. The Moors call it Chamey, the Gentoos Senagoolloo, and the Malabars Kadaly.—

No. 4, is parched pease; and tho' the pease are mostly imported from Bengal, it is a plentiful article in all the Bazars, and is retailed for one fanam the Madras measure, all Casts eat it. In Moors it is named Puttany, in the Gentoos, Puttanyloo, and the Malabars Puttany.—

The chief difficulty with the Native Troops at Sea, is the necessity of providing them with separate places for Cooking according to their Casts, entirely unconnected with those established for the Ships crew. Two

we may be all Comprehended in, and reduced to three Viz^t

One for the Moormen

One for the Rajapoots, Gentoos, and Malabars

One for the Paryairs.

The Rajapoots indeed, However trifling in number, will sometimes pretend to a place for themselves alone; and the only man of that tribe in my two Companies on the voyage to Bombay, accused me openly of falsehood, and held out a fast of three days, until he was glad to join with the Gentoos and Malabars, The refusing a Cooking Place to the Rajahpoots whose number in the corse Troops is very inconsiderable, is a point of great convenience, because although in very large vessels it might not be of much consequence, yet in smaller ones it might make a great difference and the room be very ill spared, or an indulgence to a few individuals, who, in fact, have no proper claim to it, there being nothing in the least material against the Rajahpoots Cooking with the Gentoos; Altho' the Sepoy abovementioned told me that he had lied to him, when I first told my men that every man should Cook without prejudice to his Cast. Three separate places however, should in all cases, be peremptorily insisted upon, nor any compromise yielded to European Masters of transports manned by Natives, who are in general most troublesomely averse to any thing out of the Common road, and unless such things are positively and previously settled will dispute them shortly, after the embarkation even to the hazard of Mutiny amongst the Troops They are very ready to propose a junction of Cooking between the Sepoys and their Lascars. But the inland Moormen holds all those of the Sea faring line in a most contemptible light, nor will willingly Cook or eat

Copy of a Letter from Lieutenant Colonel Murcot to Captain Walter Welson. —

My Dear Sir

I return the Paper which you gave me by the Generals desire, and how far I can speak to it, is as follows. —

I went with the 9th Battalion, the first Battalion ever imbarked as an entire Corps from this Establishment (in 1775 from Anjengo to Bombay by Sea) the Passage in April may and June having been upwards of two Months

Months, and had myself the charge of two companies in a Ship of about 500 Tons.

I believe that the list contains all the necessary articles of raw or unrefined Provisions, but I do not observe Stones for pounding and grinding Curry Stuff, of which there should be at least twelve Sets, each Consisting of a Roller and a Flatt, in every Ship, and it is much more agreeable to the Sepoys and otherwise more eligible that they should have the preparing of it themselves than that it should be procured ready mixed and ground. Neither, in the List are Earthern Pots, Other ones will not do for them, nor Chatties mentioned, although these, so indispensable articles must of course be understood —

From what Experience I think there might be the greatest utility, in having a small store of dry eatables for the Native Troops ready dressed, against the chance of bad weather as to prevent Cooking, a circumstance we suffered from in the voyage to Bombay, and which occasioned me much uneasiness, because, tho' the Sepoys will in general bear want with more patience than Europeans, yet it evidently discharten and discourages them. Those prepared eatables are to be found in every Bazar, they will keep for any length of time, and the very small cost of them can be no object to Government comparable to the end in view. Sweetmeats are an improper Substitute, as issued in any quantity, they will bring on bowel complaints another reason, and perhaps indeed a more for all one for there being such provision made on the extended Line of March is that, on landing and the Service immediately commencing, any opportunity or means of dressing victuals seen or surely be fixed — a very small portion of these prepared eatables, as such as can be no manner of encumbrance per each man to carry, will sustain him for 24 or even 48 hours, and such resource may permit of leaving the Knapsacks on board, until the first onset and following up is over.

This

Copy of a letter from Major General Braithwaite to Mr. L. Ogn.

Dear Sir,

Inclosed you, enclosed, the list you left with me of articles to be provided for the Native troops, also a letter from Lieutenant Colonel Muat, to my Secretary Captain Wilson.

Knowing that Lieutenant Colonel Muat had been so many years attached to a Native Corps, and that he had embarked with them I directed Captain Wilson to submit the list to him and to say that I desired his opinion on the subject. In consequence of which he wrote the one which I enclose, and as there is much good sense in it, resulting from attention and experience, I shall be obliged to you to communicate it to Lord Hobart, who I have no doubt will authorize you to act in your Department according to it.

I am particularly pleased with that part of Lieutenant Colonel Muat's letter relative to the laying in a stock of ready dressed provisions if I may so term the four articles he has mentioned, and of which he has sent Musters, which I now send to you with this letter.

I should consider an ample supply of the articles very necessary were the voyage of the Sepoys alone to be considered - but on such a service as we are about to engage in I consider them as indispensibly necessary as it is more than probable, that for some time after our first landing the Native Soldier, will have little or no time to spare for preparing his meals. I shall only add one circumstance which has escaped Lieutenant Colonel Muat, but which I know to be of material consequence, namely that the water Casks, intended for the supply of the natives should be kept apart and filled, in the first instance by those of the superior Casts - which is to the Sepoys as material as that the water should subsequently be served out by them.

All the passage may not be more than

than two Months, I should hope that you will be authorized to make provision for double that time at the very least. It is within possibility that we may be prevented from effecting what we intend and it is probable, that in the event of making good our landing we shall nevertheless, for some time be obliged to depend entirely upon our own

I am
Sir
Your very obedient Servant

J. Webbe Esqr.

Dear Sir,

In addition to the communications in my Public address, I can inform you that this Government will be able to provide a sufficient sum of money for the Troops, on the Expedition, altho' not without very considerable embarrassment.

I have the pleasure also to enclose You a list of the Ships now fitting out here for the Expedition, the 33d Regiment is to embark on the five armed Indiamen, and the Marine Battalion, on the General Goddard, and the

the Nancy and Abercrombie Country Ships, The Tonnage of these three Ships is considerably more than is necessary for the Corps, and probably one of them will be ordered to your Presidency unless it shall be thought advisable to fill them up with some of the most important Stores, in order to avoid the risk that may attend the sending them in the unarmed Ships that are to proceed from hence to your Presidency as they are ready for Sea, —

The armed Indiamen, and the Ships which are to carry the Marine Battalion, will go direct to the Place of rendezvous, and it is proposed that they shall Sail from hence about the beginning of July, so as to reach it by the latter end of that Month, The Superintendant at Prince of Wales Island, has been written to, to collect as much live stock and refreshments as he may be able to procure

The remainder of the Ships, the Tonnage of which is Rated at 7,626 Tons, will proceed to your Presidency as fast as they can be got ready for Sea, The Busbridge, Pitt, Royal admiral, and Lascelles will sail in a few Days, should more Ships be procurable here, it is proposed to take them up —

I have the Honor to be
Dear Sir
Your very faithful and
obedient Servant

Translate of Intelligence from Tanjore dated the 9th of February received the 5th 1791

On the 6th of February the Killedar of Tanjore received accounts from Goote that the body of troops which marched some time ago from Seringapatam had encamped at Goote and that the Force now there consisted of five thousand horse, and ten thousand foot.

That there was a scarcity of water in the Fort of Goote, as wells were sunk for three days and one thousand Coolies were employed in replenishing the reservoirs with water, that in consequence of this drought the Inhabitants of the place, had quitted it, and taken up their abode in the neighbouring villages.

It is reported that many of Tippoo Sultaun's Ryots have carried their complaints to Rokullah a Chieftain of Purseram Bhow's, and who is at the head of

Translate of Intelligence from Jarmuni, dated 26th. Jan.y 1797.

It is rumoured that the Sultaun intends going to Gorti. – They are working as usual at Bhir, towards the completion of the Fortifications.

One of the Chittaldroog Zemindars in conjoining with the Mahrattahs, has raised the head of disturbance, & that in order to chastize him, Mustafa Cuttee is reported to have received orders, to detach five thousand men, with Guns, to the Chittaldroog Quarter.

The Force formerly stated to have arrived at Echapattun* and at Nuddumunder, has now advanced on to Thimmunna Pettah, and the Report is, that it will proceed on to Gorti.

* In the last Jarmuni Intelligence this Village is called Boyapattun – See Intelligence from Jarmuni dated 29th. January.

1797

any report or indication of the Camp moving. – We extended our Inquiries from Goote in one direction to the distance of twelve Cose as far as Hurry Hunamuttoor, and the result was, that except the Troops above mentioned, there are no others at present in the Goote District. – Meer Mohomed Sheriff Killedar of Hurry Hunamuttoor, has five hundred men with him in that Fort. – Papoo Nair, Purneyeer, Peerahunt, Kittaul Saheb, and Nandi Saheb are in the Fort of Goote.

The News of Seringapatam is, that the Sultaun is labouring incessantly to complete the Fort, which he does not quit above one in eight or ten days, and then only to go on a hunting match, or to visit his Gardens and his Father's Tomb. He is very much

much occupied in completing and
preparing his Ordnance Department, and
is collecting a great number of Bullocks.
— We learnt from some Syria Merchants
Inhabitants of Bedrore, that the Sultan
was fitting out six more Ships at
Mangalore:— That the French also were
collecting Stores: That it was reported that
they were to be reinforced by other
arrivals; and that upon this actually
taking place, it was the Sultan's
intention to attack the Possessions
of the English.

Etc. Etc. Etc.

* meaning most probably that some French Troops were said to have landed at Mangalore.

iron plan

State Concerns.

Tippoo Sultaun is absolutely shortsighted, and a Watcher of opportunities. He is a man void of faith or sincerity, nor even is his oath to be trusted. It is very necessary to be watchful in all affairs of his Highness's Sirkar. — What evil design has that shortsighted faithless man (meaning Tippoo) now in view? — It is uncertain what his intention is, in thus collecting an Army on his Frontiers at present. — Whatever whatever Information I receive, shall forthwith be communicated.

If he (Tippoo) should recall his Army from his Frontier, it will then be necessary to employ his Highness's Forces in this Quarter, in chastizing the shortsighted Zemindars of this State;

— That

His Highness with the Shimpoor Zemindar for his Tribute, who through his innately bad disposition, has not been able to refrain from sending Vakeels to Tippoo Sultaun. — Formerly encouraged thereto by the Poorah People, he ravaged some of the Talooks of this Sirkar, and took possession of the Fort of Seggheir; now, at the instigation of some Enemies of his Highness's Government, he has dispatched Vakeels (to Seringapatam) to continue mischief. This is written in order to apprize you thereof.

It is very requisite likewise, that collecting a certain Force at the City (Hyderabad) they should be prepared and vigilant. — If any disturbances are set on foot in the Talooks of this Sirkar, the same shall be represented; but if the

From Resident at Hydrabad
19th November 1796
with Enclosures
Papers of Intelligence
Post to Lord Cornwallis

Verbal Report of a Kirkarrah sent
Kurnool for Intelligence received the 18th Nov 1790.

The Chowkydars throughout
the Kurnool Country, are not only very
inquisitive of all Travellers, asking them who
they are, from whence they came, whither proceeding,
what is their errand, who sent them and to whom
they are going, but likewise search them very
strictly.

The Kirkarrahs account of the
Forces of both Tippoo and Aley Khan, agrees
with that contained in the accompanying
Letter from Kurnool.

Upon the first approach of Tippoo's
Forces, the Inhabitants of Kurnool were greatly
dismayed and alarmed. — During the prevalence
of that alarm, several creditable families
quitting the Country, went to Paugtoor and
Gudwaul; while others even carried the
Kistnah, and retired wherever they thought
they should be in most safety. But now
finding

apprize you of the Result

9th June This Night News
arrived that 400 Horse, and 1600 Infantry
have proceeded from Goorty, by way of Belhary
towards Nawab Sau - and that they have
encamped today at the Village Vedrher -

10th June - the Hirkharahs
have brought Notice, that it is true Horse
&c have proceeded from Goorty, but it is not
known whether they have gone - I dispatched
a Faheer, an Inhabitant of Dhoorwaveem
to ascertain this Circumstance - he returned
and informed me that what I had heard
before is true and that besides those troops
there also marched 4000 Infantry and 2000
Sowars - but he could not learn whether Horse
send another Faheer, at his Request for Month to discover the
Matter, and shall inform you, when he shall return

Sir,

I have the honour to transmit for the notice of Government a Paper of Intelligence received from Tanjore.

I have the honour to be,

Sir,

Your most Obedient

humble Servant

[illegible]

Hyderabad
22d. June 1796.

the Capital – the Zemindars, Jemadars and Pattails were also Summoned –

My Harkaras has learnt that Tessoo's Son, with 2000 Horse and 6000 Infantry on the 23d. May came out from Seringapatam, and encamped about 2 Miles distant –

3d. June – purpa the Harkarrah whom I sent to Gutty, has brought me Notice that the Killadar of Gooty has repaired to Seringapatam – and left Paupiah to manage Matters for him, in his absence – there are 5000 Horse and 2000 Infantry at Gutty –

The Bazar Report is, that the whole Army is getting in readyness and the Harkarrah reports the same thing –

4th. June – the Bazar report is, that Kenn ud Deen Khan with 6000 Horse and 8000 Infantry is encamped at the Moody Tank – and that at present 4 Months pay have been issued to the Sibbundies –

6th June— Rassapulty Nicikannah, who went to Oodkoor has brought Intelligence that Sheshapah Mack, who had been sent from thence /Tegoor/ for Secret Intelligence had gone with that View towards the English Troops—

It is reported at Seringapatam that the Troops have been ordered, every where, to assemble— and that the head Men Omedars Jaultails and Jaultawars of every Village, have been ordered to attend at the Capital to render an account for 4 years— they accordingly attended —— after the Looha Feast, /they will return—

8th June— Intelligence has evidently arrived from Dhurampoory that Gopis Entance is coming from Dhoorpolly, Baby and Coodary— and that they will take Recruits from Gundary - on the 2d June 2000 Horse 4000 Infantry 4 Guns &c came out— I Sent Nicikannas to ascertain this Intelligence

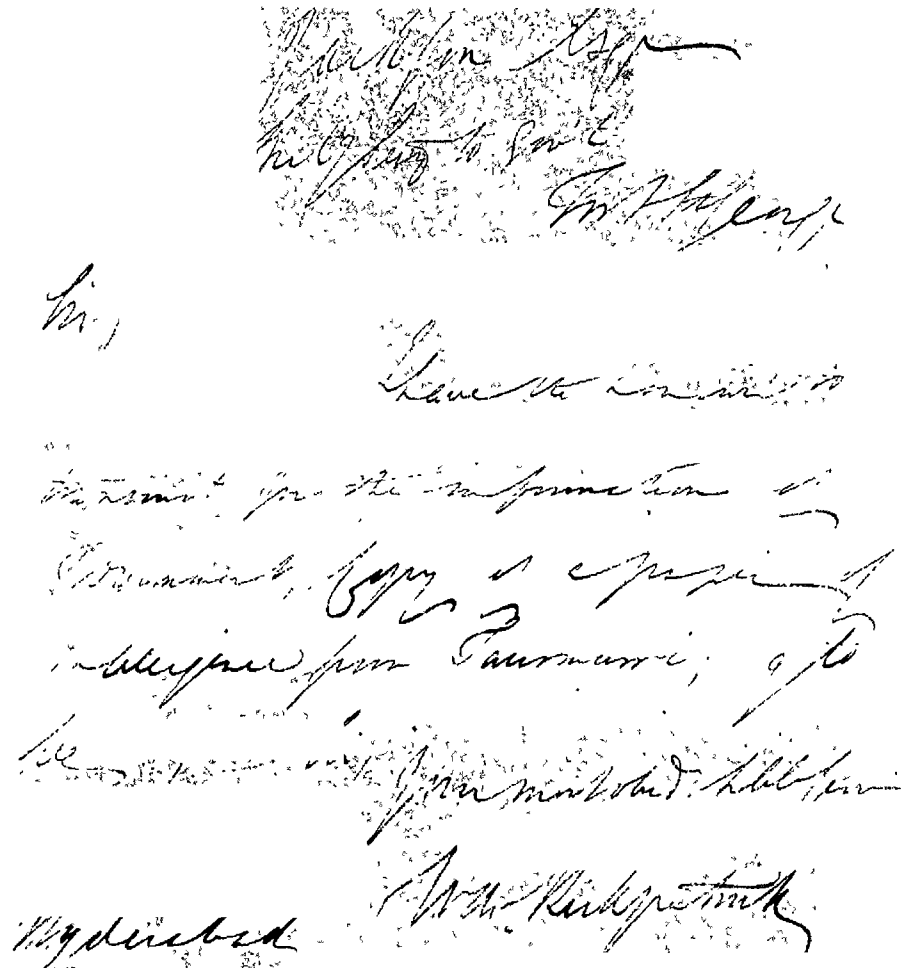
at Hyderabad
Date 17th June 1796
Rec.d 26th Do Do

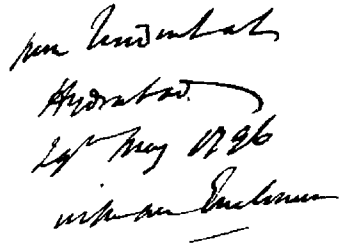
Translation of Intelligence from

Sauncary &c. from 28th May to 10th June 1796

On the 28th May the Bazar report at Sauncary was to this Effect— that Seyud Sahib, agreeably to the Sultans' Orders, encamped 4 or 5 Kurrahs on this Side Seringapatam, with 2000 Horse; 3000 Infantry and 12 Field Pieces—

28th May— I dispatched Ranna Kirkarriah to Annantaporam, to bring me certain Intelligence— he said it was the Bazar Report, but by no means certain, that the Amildar of Gooty and the Killadar of Annantaporam were Summoned to the presence and that they are to proceed thither in 2 or 3 Days— that a Kirkarrah brought orders to the Durgha of Annantaporam and Gooty to repair, with whatever troops there were to





Intelligence from Russia, dated the 3d. Zecauda, or 11th May, and dispatched the 12th. May.

47

3d. Zecauda or 11th. May.

Some Merchants who arrived this day from Seringapatam report as follows,

"That Tippoo Sultan was at Seringapatam, and that his Troops were assembling. That those already assembled amounted to 15000 Cavalry and 40000 Infantry, Musquetiers included were encamped on the Banks of the Cauvery, and that, new Levies of Horse and Foot were making. It remains, however, a profound Secret, to what quarter, the Sultan intends moving."

"The Sultan continues engaged in rebuilding various parts of the Fort of Seringapatam."

"Isaac Allekhan, is still employed in endeavouring to reduce Dubber-pully. The excesses committed in that quarter by his foragers, have made numbers of the Inhabitants abandon the Country."

Hyderabad
29th May 1798

" ...ying of that Prince's, that it is highly offensive
" and unworthy of men to attend much to dress,
" we take pains in ornamenting himself. The
" Pay of the irregular Cavalry (Silladar) varies
" from thirty to fifty Rupees per Sultaunee month
" — The pay of the Infantry (armed with Musquets
" is twelve Rupees a month to each private
" according to the above mentioned reckoning. —
" The Body of Regulars is likewise clothed
" uniform by six Tazee-coloured Jackets — But
" individual himself, is allowed to please
" his own fancy in the shape and Colour of his
" Turban, no uniformity being required in the
" article of dress. During my residence at
" (continued Shee P.) I do not recollect ever
" seeing any Corps, or indeed a single Sebay
" clothed after the manner of the Sebays of the
" Sangues, though it is probably may be Corps
" that appertained to the [illegible] Sebays
" Camp, which for want of leisure I never
" was visited "

" Upon my questioning Shee P.
" as to the amount of the Sultaunee Force in
" regular Cattle he informed me that the
" Bullocks in the Ordnance Establishment did
" not fall short of twenty four thousand, and
" that to every four Bullocks one driver was
" allowed, whose pay was seven Rupees a month
" (Sultaunee) — That a certain requisite proportion
" of these Bullocks was always kept at the Capital

" and the Commander destroyed by frequent foraging
" detachments "

" Upon my asking him what was
" the Cavalry the Sultaun generally took
" with him, when he moved with his Army, &
" person, he replied; that he had never seen
" when the Sultaun move with his Army, but
" imagined (from what he had been able to
" observe) that his field train did not
" amount to less than two hundred and fifty
" pieces of Ordnance. That both his large
" cannon and mortars were the manufactures
" of the Country, the Sultaun at a great expence
" having established and kept up Foundaries
" and Armouries for the purpose. And though
" it could not be denied that Tippoo's Manufactures
" in comparison with Europe ones were rather
" their more imitative, (accurately that there
" was all the difference between them, as
" between a Copy and an Original) yet was he
" (Tippoo) great Encouragement to the use of those
" manufactures of his own, which he was sensible
" in the habit of wearing. That Tippoo
" Estimation of Indian Manufactures was [redacted]
" who many pictures he used to have Painted with
" — Speaking of the proper use in Tippoo
" Military Service Shaw observed, that if
" any one hoped was to attain to preferment
" circumstances in it, he would undoubtedly be

79, 3, 66, 55, 47, 10, 82, 30, 31, 40, 65, 28. 45, 75, 44, 15.
44, 87, 55, 69 66, 53, 11, 69, 77, 14, 53, 83. is corro-
borated by accounts from other quarters:
but none of them come sufficiently
well authenticated, to allow of any reliance
for

It seems there is a regular Pappel land between our Camp and Gerry, by virtue of which they know at the latter place all our motions - De Hiscards who came last night from Belling and the Pappel Peons posted in different directions, and carrying intelligence from our Camp.

Your Extract.

W. Kirkpatrick

Extract of a letter from the Camp of the Ellore Detachment at Kamanahjeeny - 13th May 1796.

Two trusty Sepoys have returned, whom Captain Dalrymple sent from Rachore to Gooty, in order to get good intelligence for you of the force in that neighbourhood. They found a body in the Pettah and obtained an encampment outside of the Fort of 500 horse, and 400 Infantry, commanded by Mustapha Saheb - the Garrison consisted of 1000 Infantry, and they were busy in repairing the works, and getting in Provision from the adjacent Country - The Sepoys did not hear of any other Force of Tippoo's being in the neighbourhood of Gooty - but met with several Parties recruiting men for his Service.

H

14th Shuwaul
or 16th April

Thus by Ishan that Arabob Jan who had fled to Mudkul with the hope of finding an Asylum there, had been refused by the Sultaun of that place; and that in Consequence he has taken his Route towards Kôrpul.

20th Shuwaul
or 21st April

Shintoory Hüsain who is to Comply as reported to have received Orders from Tippoo to join Narrul Gokul the Mahratta Zemindar, who lately defeated Hüsain Ali Khan [the Nizams Manager in the Sugunder Ghur Quarter] Meerza called Arabob Jaun

21st Shuwaul
or 22th April

Tippoo Sultan has dispatched Bubbee Jung to Comply, and Anna-gondy, from whence it is rumoured they are likely to visit this quarter.

22d Shuwaul
or 1st May.

A Polegar in the Country situated below the Ghâts having rebelled, accounts received to-day mention that Tippoo was preparing a force to send against him from Seringapatam.

23d Shuwaul
or 2d May

Bubbee ud Deen Khan, and his Brother Omar Khan (late Chiefs of Raichore) being protected by Shintoory Hüsain are in Arms in the vicinity of Hunnuck ghery.

24th Shuwaul
or 3d May

Accounts received here to-day mention that Tippoo Sultan has pitched his standard in the Village of Somarpett, and was on

Translate of a Letter from Bednore —

12th Shawal
or 21th April — This Day a Peon of Hostorne has arrived here from Rey Droog, Ballam Droogum and Chinum Droom, and who had proceeded to the distance of 27 or 28 Cos beyond the former Place reports as follows

That no Troops were stationed at any of the above places, excepting Rey Droog where Mustan Sahib and Purnima were, The Talookes of Rey Droogum, Ooty, and Pungoon da, being in charge of those Chiefs —

Mustan Sahib, and Purnima, has proceeded to Ooty on their way to the forementioned whether they had been summoned, to adjust their Accounts; but Mustan Sahib has satisfied himself, with deputing an Agent named Ardappa, for this purpose —

Chuntoory Hussain Sahib, [the same whose mentioned in the Fragments of Correspondence found at Rachore] with a force consisting of 2 or 300 Horse and Foot is encamped at the Village of Chunsby — Bubbundroog with two Troops is expected shortly at Anna ground —

Tippoo Sultan has ordered two Tents out ready of Seringapatam, and reports says he intends to visit some Place in his own Dominions —

to all his Troops —

Great preparations are also making at Seringapatam of Ordnance Stores &c., and on the whole it, could appear as if War on some Quarter or other was intended but the actual Quarter is not known —

Purseram Mullea, and Mustar Saheb are on their way to Goa, and Khunday on business —

I mean to proceed immediately to Bulhar, whence I shall send a pair of Hurkarahs to a considerable distance for Intelligence —

The 10th Shawaul or 19th April — It is understood from a respectable Person arrived here from Rany Bidenoor, that 7. or 8000 Infantry has arrived at Sharra Ghery from Coreil Bander (Mangalore): that 2000 more were encamped at the Neighbourhood of Hoola Hussoor, 2000 at Sara Mungy, and an equal number at Suggy param, — It is said that these Troops were intended to relieve Bachore, but that their progress had been stopped, on consequence of the Capture of that place by the English Troops

The common report here is that Tippoo intends visiting this Quarter, and the Troops are accordingly assembling

Translate of a Letter from Adoni dated 11th Shawaul or 20th April. —

On my arrival at Adoni I was informed that no Birtaniahs were to be had at Bullary. — I therefore after a search of 4 or 5 days fell in with five Pair who required at first 70 Rupees each but who end agreed for 70 Rupees each. — The reason of the demands of these People being so high is the custom in Tippoo's Country to cut off the noses and ears of all who are detected in collecting Intelligence —

On the 9th of Shawaul or 19th April I dispatched two Pairs of Birtaniahs to Gooty and Pennaunda who proceeded to the distance of 32 Cos beyond the former place and returned to me on the 27th of Shawaul or 24th April —

Their Report is as follows —

The force at present stationed at Gooty, under Meer Ghulaum Hussain Khan consists of 1500 Infantry, and 100 Horse commanded by one Bhuzzeeyu a Brahmin with 21 Pieces of Cannon.

These are only the usual Shannahs, or Garrisons of Country Powers from Summer, and Winter, that is to say Five Men, and 2 Guns at each, —

The marriage of Meer Hussain Sahib* was celebrated 15 Days ago. — There is a Report here, that on his Departure for the Capital he acquainted the Troops his intention of returning in a few Days, and charged them to be in readiness accordingly. — He has issued similar directions

* Tippoo, no doubt, [illegible]

Seringapatam to procure information of the
State of affairs there, — On their return from thence
all the Intelligence I can learn from them shall
be communicated —

Some Merchants lately arrived
here from Seringapatam, report as follows —

"That preparations for the
marriage of the Sultaun, had been made and
that the day appointed for the ceremony was the
27th of Ramzan, — That levies of Troops were
making, and that to each of the twelve Cutcherries
into which his Dominions are divided the
Sultaun had sent an advance or dar of a Lack
of Rupees, towards raising fresh troops, but
that notwithstanding these preparations there
was nothing else that gave reason to suspect
he entertained any hostile views towards any
particular Quarter —

The Sultaun had sent 2000
Cavalry and 4000 Infantry against the
Zemindar of Anul Pooly Droog, with whom
frequent Skirmishes had taken place, —

Hydrabad
3d May 1796
rec'd 12th
with 2 Enclosures

Intelligence from Cullanoor dated the 1st Shuwaul 1210, or 6th April 1796.—

1. It is understood from Communications made to Hurry Singh Kegary by Sirdars recently arrived here from Seringapatam that the preparations for the celebrations of the Nuptials of Tippoo Sultaun were all in readiness, and that the ceremony was to take place on the 27th of Ramzaun or 8th April —

2. The Lady to whom the Sultaun was to be married, is a daughter of Syed Saheb, a cousin German of Cummer ood deen Khan —

3. The Sultaun had invited Meer Muttaun Saheb, the Serdar of Gooty, to the marriage.

4. Orders had been dispatched by the Sultaun, for the purpose of buying up Bagagees of Grain, in all the Forts throughout his Dominions, and the fortification of Seringapatam, continued to engage his constant attention. —

5. Syed Allekhan has taken and pillaged Bisnapore, and is now encamped at Semul Durry, distant from Semul Mummuck 5 Coss. His force consists of 2000 Cavalry, 2000 Infantry and 2000 Pyadahs — His Intentions whatever they may be, are unknown —

Intelligence from Kurpa, transmitted by Mahomed Hussun, dated 1st Shuwaul or 10th April —

Abdulla Saheb the Aumil of Kurpa and Mahomed Reezy the Offaun Mahallah Zemindar, have each despatched a part of their Forces to Seringapatam

a force consisting of 1000 cavalry 2000 Musquetiers,
1000 Matchlockmen, and 4 Pieces of Ordnance,
with the intention, as is apprehended, of entering
the Kurnool Talook, for the purpose of levying
the balance of Pushcush due by Alif Khan to
the Sultaun —.

Intelligence from Hurriock, commencing 16th Saumjan. or 26th March 1786.

16th Saumjan. This Day Alif Khan dispatched a Yakul, with a Letter and a Present consisting of 2 Horses, 16 Tuns of Sibab, a Turban, and a Piece of Kumkhab to Ondut ul Omrau, on occasion of his accession to the Musnud of the Carnatic —

17th — Alif Khan received information today of Ally Khans having despatched 1000 Cavalry & foot against the Zemeendar of Beemapoor, who had revolted: and of an Action having taken place between them, in which the Zemeendar had been routed, and forced to take flight towards Kurpa, in consequence of which Ally's People had got possession of Beemapoor — —

18th — Intelligence was received by Alif Khan from Seringapatam, of the Sultaun's being very much engaged in preparing for the celebration of this approaching Festivals: and of his having despatched a force of 5,000 Cavalry, and Infantry with 4 Pieces of Artillery, against the Zemeendar of Sorreen Bonda who had lately revolted — probably the same with the Zemeendar of Bungnoor, mentioned in a late Paper of Intelligence —

22d — Advice was received from Kistnapoor (a place in the Talook of Sooby) that Sibab Subbia Ra, & Papanna Nair, Chiefs of Tippoo Sultaun, were arrived at that place with 500 Cavalry 1000 Musqueteers and 500 Mulchelchemen and that this force had carried off some Cattle from the Talook of Adoni —

24th — Accounts were received from Dy Droogs reporting that Basappa Pundit was arrived there, with

Translate of Intelligence from Ullanoor dated the 16th of Runmgan 1211.

Two intelligent men who were despatched from Ullanoor some time ago by Bunny Sing Bugarry & Soonga Captain, for the purpose of ascertaining the state of things there, have just returned to the Hungary at Ullanoor. They report as follows "That "Tippoo Sultaun, was preparing for the "approaching nuptials which it was said would "take place on the 27th of Runmgan. That he "had strengthened the works of "Soonga Captain, and was also erecting a new Fort "at the distance of 1 Cos from thence, & that he had, "likewise, at about repairing the Fortress of Dhoor."

They further report, "That a nephew "of Bhungy Nawab the famous Bungawah, who served "under the protection of the Nizam, had been "greatly distinguished by the Sultaun, who had "lately presented him with an Elephant, and bestowed "golden Cowrahs on fourteen other Bungawahs, all "of whom have agreed to leave the service of Nizam "at Soongapatam & come & join the Sultaun."

The Jemadar of Rungaroor being informed, Tippoo had received 1000 Cavalry, and 600 Infantry together with four Pieces of Cannon against him. The rest of Bargeers are now busily employed in the Fort.

Mahommed Ameen Khan who had been sent over to the Hungary by the Captain Swami
